

# PLEAS FOR HARMONY FAIL TO HEAL G. O. P. SCLASH AS ANT-LANDONITES RALLY BEHIND VANDENBERG

## ICKES RIPS LONDON AND SAYS HEARST TO EDIT PLATFORM

Kansas Has No Views on Anything or He Hasn't Dared To Make Them Public, Secretary, a Rebel Republican, Charges.

## FARMERS ARE WISE TO WEASEL WORDS

Most Adroit of Tightrope Walkers Is Needed To Write Plank on Constitution, He Comments.

WASHINGTON, June 7.—(UP)—Harold L. Ickes, a rebel republican who joined President Roosevelt's cabinet, tonight voiced the New Deal's first personal attack on Alf M. Landon, asserting the likely G. O. P. presidential nominee "has had no clearcut, forthright views—at least none he has dared to express openly."

He claimed William Randolph Hearst was the "discoverer and principal backer" of the Kansas governor and said "there is reason to believe that Publisher Hearst will do the final editing of the platform draft."

The New Deal's secretary of the interior and public works administrator, speaking almost on the eve of the G. O. P. Cleveland national convention, then turned to a political belittlement of the irreconcilable views of the republican organization.

He said the G. O. P. platform plank on the minimum wage and maximum hour schedule must be written by "the most adroit of verbal tightrope walkers."

He said the G. O. P. platform "will spread weasel words, ambiguous phraseology, promises facing both ways before the farmer's eye, hoping they can fool him as they did up to 1932," in its farm plank.

"And even when" Ickes said in a nation-wide broadcast, "the masters of the art of facing-both-ways have apparently composed the irreconcilable views of Mr. Hoover, of Mr. Borah, of Mr. Mills, of Mr. Pinchot, of Mr. Mellon, of Mr. Lowden, of the Young Republicans of New York state and

## Minnesota Guards Hunt Mad Criminals

ST. PETER, Minn., June 7.—(AP)—Sixteen inmates of the St. Peter state insane asylum criminal ward, led by a former Barker-Karpis gangster, escaped tonight after slugging five guards. Five hours later 14 of them still were at large.

Thirty-five national guardsmen, equipped with machine guns, immediately joined a large force of local and state police in the search for the fugitives. The hunt centered in the brushy bottom lands of the Minnesota river which skirts the asylum grounds.

Ringleader of the fugitives was Lawrence De Vol, alias George Barton, transferred here from Stillwater state penitentiary last December. De Vol, an associate of the notorious Alvin Karpis and the Barker-Karpis gang, was sentenced for life January 9, 1933, for aiding in the robbery of the Third Northwestern National bank in Minneapolis, which resulted in the slaying of three persons, including two policemen.

## Three Days of Scattered Showers, With More Forecast, Aiding South

Widespread Short Rains, However, Serve Only as Partial Relief; Steady Downpour Is Needed To Clear Parched Soil for Replanting.

Scattered thunderstorms over the three-day period of Friday, Saturday and yesterday in various sections of the southeast brought a certain measure of relief from the two-month drought which has brought southeastern agriculture to a virtual standstill with an estimated loss of more than \$100,000,000.

The showers are expected to continue today and through the early part of the week further aiding in checking the withering lack of precipitation, but forecasters and agriculturalists pointed out yesterday that heavy rains of a day or more's duration are necessary to restore sufficient moisture to the parched soil.

Shower Aids Here.  
A thunderstorm in Atlanta late yesterday afternoon served to bring some moisture to parched lawns, trees and plants.

The weather bureau at Candler field last night issued an encouraging forecast with the prophecy of the continued scattered thunderstorms in various sections of the state and southeast and a prediction of cloudy weather for Atlanta today. However, forecasters said, heavy rains are not yet in sight for this section.

Under cloudy skies the mercury is not expected to reach yesterday's peak

## FRENCH STRIKERS WIN ALL DEMANDS

Terms Made as Red Flags Dot Factories; Evacuation of Million Ordered.

PARIS, June 8.—(Monday).—Premier Leon Blum's new leftist government brought French workers a smashing victory today, ending the nation's general strike by imposing a settlement giving the million workers everything they demanded.

The agreement, announced by Interior Minister Roger Salengro, affects all except "white collar" workers, a small minority of the nearly 1,000,000 who joined in the industry-crippling walkout which began 14 days ago. The situation reached a critical stage yesterday with red flags appearing over factories in a number of cities.

The employers, Salengro disclosed, agreed to raise wages from 7 to 16 percent.

## 7 Killed, 18 Injured In San Francisco Fire

SAN FRANCISCO, June 7.—(AP)—Seven persons died and 18 were injured today in a fire which swept rapidly through a four-story frame hotel in the south-of-Market-street rooming house district.

The Rev. F. C. Clark, 56, of Cheyenne, Wyo., a delegate to the Seventh Daily Adventist international convention here, died in the smoke and flames, but his bride of two months was rescued. She received serious burns.

Mrs. Clara Roland, 60, a seamstress, suffocated in her room.

The other five dead were not immediately identified. Authorities said some of them were so badly burned that identification would be difficult.

## 107 ARE ARRESTED IN TRAFFIC DRIVE; BAD CRASHES DROP

Saturday Night Patrol Brings Results; Judge's Charges Bring Flood of Complaints From Violators.

Late Saturday activities of the motorcycle squad netted 107 violators of traffic regulations, one-half of the number nabbed the previous Saturday, when the first surprise drive was conducted.

Working the same late shift, and operating until 3 o'clock yesterday morning, officers found a marked decrease in violations, but found themselves beset on every side by complaints of "traps," "the lights are crooked," etc., apparently an aftermath of Judge John D. Humphries' allegations made Saturday.

The drive has resulted in a sharp decrease in the number of accidents, however, with no serious crashes being reported in the city limits from 7 o'clock Saturday night to the end of the squad's tour of duty. Lieutenant W. M. Weaver is in charge of the squad.

Speeding led the list of charges, 32 persons being booked, a reduction of approximately one-half over the preceding Saturday night, when 75 speeders were arrested.

Officers said a large percentage of those arrested raised a cry of "racetrack" and laid this to Judge Humphries' blast at the traffic squad and street signal lights following his son's arrest on two charges during the week.

This did not prevent 18 persons from being arrested on charges of disregarding red signal lights.

Fifteen persons were booked on charges of driving while intoxicated, a drop of only one from the number arrested the preceding Saturday.

Reckless driving charges jumped, with 22 persons arrested for this offense.

## WELTNER CALLS MEETING IN MACON FOR MORE LAWS

June 18 Convention Will Choose Candidate To Oppose Talmadge Rule.

MACON, Ga., June 7.—(AP)—A group of Georgia democrats led by Philip Weltner, former chancellor of the University System, today issued a call for a state convention here June 18 "to adopt a democratic platform and select a candidate for governor."

The executive committee of a state-wide organization sponsored by Weltner, to let the people choose their gubernatorial candidate, selected Judge Blanton Fortson, of Athens, as keynote speaker.

Leaders said the convention will start at 11 a. m. June 18 in the Macon auditorium. They predicted state-wide representation.

Judge Fortson is a member of the Georgia advisory board for the Roosevelt campaign.

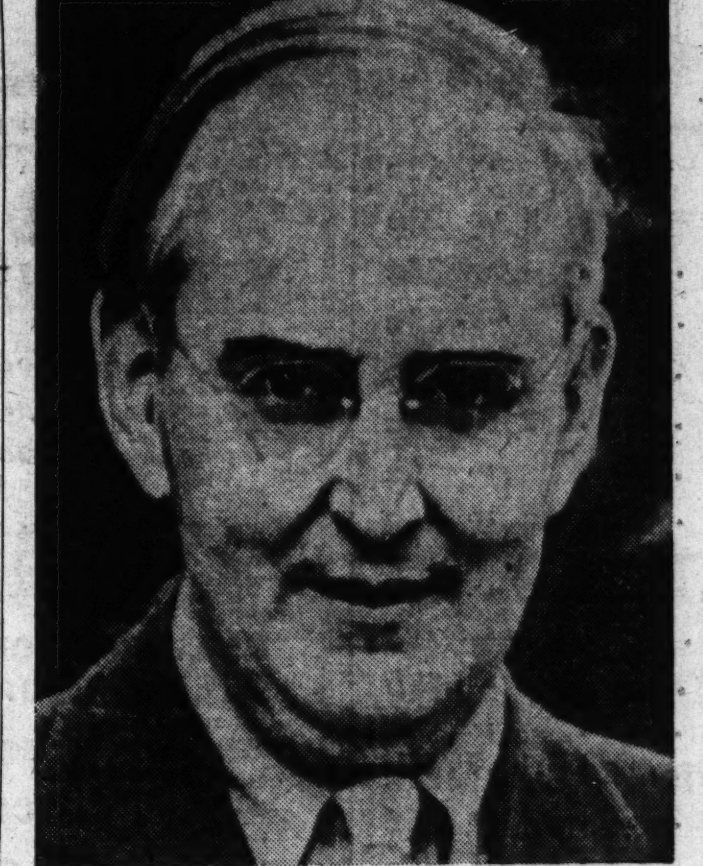

Committee had announced the convention of the Weltner group would be held on July 4, the day following what is generally believed will be the date for closing state primary entries.

County Unit Rule.  
Had that date been chosen for the convention, critics said, the group would not have "drafted" a candidate, as was the original intention, but would have been able only to endorse someone who already had qualified in the campaign.

Mr. Weltner said here today that

## Carries Hope of "Stop-Landon" Movement

SENATOR ARTHUR H. VANDENBERG.

## SOUTHERNERS PIN HOPE ON REPLOGLE

Floridan, Former Steelmaster, To Be Backed for Vice-Presidency.

By GLENN RAMSEY.  
CLEVELAND, June 7.—(AP)—Republican leaders in the south, seeking recognition for that section, today are rallying to the support of J. Leonard Replogle, wealthy Florida resident, for vice presidential nomination.

Headquarters for Replogle are established in a hotel directly across the street from Cleveland's city auditorium, where the national convention of the party will open Tuesday.

Mrs. Myra Brown, of Tampa, Florida national committee woman, is actively supporting Replogle and said today 12 southern states probably would vote solidly for him. These states have 137 votes in the convention.

Replogle's candidacy will have a prominent place in the discussion tomorrow night when the southern assembly in caucus to map plans for an expansion of two-party government in the south.

His campaign headquarters said he had been promised votes from Pennsylvania and other northern states. He formerly lived in Pennsylvania where he was engaged in the steel business.

R. B. Creager, Texas national committeeman and chairman of the southern conference of the party—organized at the 1932 national convention in Chicago—has called the caucus for 7:30 p. m. eastern standard time.

Republicans from the south, Creager said, desire to run their own campaign independent of the other sections of the country.

At present the republican campaign is run from eastern headquarters in New York, in the west from Chicago and also from Washington.

Creager said the southerners, because of their geographic location and

## Presidential Race Is Close in Panama

PANAMA CITY, Panama, June 7.—(AP)—Early returns in Panama's presidential election indicated tonight Dr. Juan Demostenes Arosemena, candidate of the national revolutionary coalition party, and Domingo Diaz, nominee of the doctrinaire liberal party, were running a very close race.

Dr. Bellario Porras, union liberal, appeared to be close behind the two leading candidates in the early counting. A fourth contestant was the socialist Higinio Arana.

Reports from all sections of the country said there was no disorder. All cafes, saloons and cabarets had been closed since noon yesterday and will not open again until noon tomorrow.

Major Ira C. Baker, of the army air corps, set his single-seater army pursuit plane down here today after a totally "blind" flight across the country.

## SENATOR DEMANDS THAT PARTY PLACE PRINCIPLES FIRST

Says Campaign Must Be Crusade or Failure; Snell Support for Vice President Grows; Landonites Silent on Mate.

## HOOVER STATEMENT SNARLS PLATFORM

Contest Between Liberalism and Conservatism Precipitated; Borah To Fight Money Proposal.

By JOHN F. CHESTER.

CLEVELAND, June 7.—(AP)—The republican preconvention struggle became more sharply a two-way contest tonight, with the forces of Alf M. Landon hammering persistently for a landslide nomination and the opposition camps rallying to an echoing battle call from Arthur Vandenberg.

When the balloting for president but four days away, the various scattered anti-Landon elements began to show increasing solidarity. There was no outward evidence of an organized coalition, nor any conclusive indication whether even such a coalition could stop the Landon drive; but along the opposition line the proof of stiffening determination was plain.

Largely the development seemed to spring from the arrival here of Senator Vandenberg, and his outspoken appeal to the delegates not to be stampeded to any candidate nor to join any bandwagon rush.

Claims Path Blocked.  
Tomorrow morning he will be followed to the convention city by Senator Borah, whose friends whispered many excited but indefinite hints tonight as to what he might do to the Landonites.

Against a new and formal statement from Landon headquarters that the Kansas selection was assured, possibly on the first ballot, campaign managers for Colonel Frank Knox, of Chicago, put forward a statement that these claims would prove a "boomerang." Carl Bachmann, Borah manager, contended that Landon's path to nomination actually had been blocked.

Meanwhile, the struggle over drafting a platform heightened, with the

Continued in Page 8, Column 1.

## Carolinas Deadlock In Governor's Race

RALEIGH, N. C., June 7.—(UP)—The democratic nomination for pandidate for governor of North Carolina was deadlocked tonight, as returns of Saturday's primary were tabulated, between a 33-year-old college professor and a veteran political leader.

With returns from 1,838 of the state's 1,850 precincts, gave Dr. Ralph W. McDonald, of Winston-Salem, college professor, 129,525, and Clyde B. Taylor, of Raleigh, former congressman, 128,340. The two had outworn A. H. (Sandy) Graham, World War hero and present lieutenant governor, and Joel McLean, Charlotte lawyer, and will be pitched into the runoff election which will be held by the party on July 4.

# ACTING POLICE HEAD NAMED BY HOFFMAN

THRENTON, June 7.—(AP)—Captain William J. Carter, of the Hammonton Station, was tonight named acting superintendent of the state police by Governor Harold G. Hoffman.

The surprise appointment was announced over the state police telephone. Major Charles H. Schofield, Schwarzkopf's deputy, had been expected to step into the vacancy left by the

state senate's failure to confirm the Governor's appointment of Colonel Mark O. Kimberling as police superintendent.

## SIR JOHN F. FRASER

**SUCCUMBS IN LONDON**  
LONDON, June 7.—(AP)—Sir John Fraser, 58, editor and high air force official during the World War, died today in London.

Sir John, who was knighted in 1921, was deputy-director of airship production at the admiralty in 1918-19. He was chairman of the Argus Press, Ltd., and former editor of the Evening Standard and St. James' Gazette and former editor-in-chief of the Birmingham Gazette.

# League of American Nations Plan Spiked by Objections From Chile

WASHINGTON, June 7.—(AP)—Chile's veto of any consideration by the approaching inter-American conference at Buenos Aires of proposals for creation of a League of American Nations apparently has barred that topic definitely from the conference agenda.

This view was expressed today by informed sources which explained that under customary procedure in Pan-American parlays the unanimous consent of participating nations is necessary before a suggested subject can be placed on the program.

Officials indicate the same system will be followed in the Buenos Aires meeting, called by President Roosevelt to consider means of strengthening the peace machinery of the western hemisphere. The meeting is expected to be held not earlier than December.

Three Latin-American countries—Colombia, the Dominican Republic and Guatemala—proposed the establishment of a League of American Nations, patterned generally after the Geneva institution, to promote peace among the 21 American republics.

Chile has objected to this, as well as to other suggestions for the creation of an inter-American court of justice, on the ground that such a body would impair the universality of both the League of Nations and the Hague court of international justice.

Even before Chile acted, however, some Latin-American observers had predicted the project for an American league would find little support at the conference. This was, notwithstanding, what some diplomats here viewed as a pronounced drift on the part of some South and Central American countries away from the Geneva organization.

Guatemala, only a few weeks ago, followed the earlier lead of Paraguay and Costa Rica in resigning from the Geneva peace agency. Brazil is the only other Latin-American nation not now a member.

From several others have emanated expressions of concern over what they regarded as a tendency on the part of the Geneva institution to minimize the importance of its Latin-American constituent. There also has been noticeable disappointment at the League's failure to prevent the Italo-Ethiopian war.

**BRITISH WANTS U. S. TO ENTER LEAGUE**  
LONDON, June 7.—(AP)—Increasing evidence of a desire by Great Britain's leading statesmen to draw the United States into the League of Nations' fold was seen today by impartial observers.

Diplomatic observers here say the renewed drive evident in recent months is not alone due to the League's manifest failure to halt the Italo-Ethiopian conflict, but to serious alarm engendered by the forthcoming United States sponsored conference of American nations in Buenos Aires just as the League are cooling.

In some quarters it is believed League supporters fear the whole Latin-American world may shortly cut away from Geneva to form its own organization. Such a move would leave the League almost entirely a European organization, inasmuch as it already has recorded failures in Africa and Asia with consequent severe blows to its prestige.

If the United States could be won to its support this movement could be stemmed, and defections, already made by Brazil, Costa Rica, Guatemala and Paraguay, halted. Otherwise, shrewd observers here believe Ecuador, Mexico, Chile and many or perhaps all the Latins shortly will follow in their footsteps.

**TURKEY TO PLEAD FOR DEFENSE AIDS**  
Conference on Dardanelles Refortification on June Twenty-Second.  
MONTREUX, Switzerland, June 7.—(AP)—Turkey, contending her national security is imperiled, will plead her case for refortification of the Dardanelles before her World War foes at a conference beginning here June 22.

These World War enemies, now considered in the class of friendly powers, are expected to grant the request. They are Great Britain, France, Italy and Japan—guarantors of the status of the straits convention.

The conference, in sharp contrast to the methods by which Germany is achieving her ends, may mark the launching of an extensive movement for revision of treaties by mutual agreement and negotiation in southeastern Europe.

Hungary, Bulgaria and Austria may follow in the footsteps of Turkey. All three are dissatisfied with post-war treaty limitations upon them.

The revision of the post-war treaties has been a burning subject for many years. Germany has been criticized for unilaterally releasing herself from the strictures of the treaty of Versailles—first by proclaiming general conscription and increasing her armaments and, second, by occupying the demilitarized Rhine zone.

**OFFICIALS SEEK CAUSE OF IOWA EXPLOSION**  
TAMA, Iowa, June 7.—(AP)—Investigators picked their way through the wreckage of four downtown buildings today, looking for a clue to the cause of the explosion that ripped a hole in the business district Saturday noon.

There were theories that the blast—which injured at least 30 persons and may have killed one or more—was caused by dynamite or leaking gas, but there was no evidence to support either.

Rescue workers were still at work in the debris, which included the body of missing boy, Billy Bartling, son of Mrs. William Bartling, of Toledo, Ia.

# AINSWORTH DELIVERS EMORY BACCALAUREATE

**Commencement Exercises Will Be Held at 10:30 O'Clock Today.**

"The world can be made new only by making man himself new," Bishop W. N. Ainsworth told the graduating class of Emory University in the commencement sermon yesterday.

"Down through the ages men have labored under the misapprehension that revolution will bring about a new order, but reformation, not revolution, is the answer to the ills that beset man," he declared. "The utility of government and the utility of knowledge in righting the wrongs of this world has been proven," he continued, "and government and knowledge are indispensable, but it is the personality of a man that counts."

Graduation exercises of the university will be held at 10:30 o'clock this morning in Glenn Memorial church, with Dr. Dumas Malone, editor of the Dictionary of American Biography, delivering the baccalaureate address.

Dr. Malone is one of the three distinguished Americans who will be awarded honorary degrees. The others are Bishop Paul B. Kern, of Greensboro, N. C., Methodist Episcopal church leader, and Dr. John W. Langdale, of New York, book editor of the Methodist Episcopal church.

Diplomas will be awarded to 280 members of the senior class.

**VIOLENCE IN WORLD BLAMED ON 'FEAR'**  
Dr. John H. Holmes, of New York, Addresses Atlanta University System.

Linking the present class of college graduates to the forces of Mithra beset by the horrors and horrors of the King of Syria, Dr. John H. Holmes, pastor of the Community church of New York, told the graduating class of Atlanta University, Spelman College and Morehouse College Sunday afternoon in the annual baccalaureate sermon that they must depend on the "intangible, invisible and imperishable" forces of righteousness to circumvent the forces of evil that ring them about. The sermon was heard by one of the largest audiences ever assembled in Spelman chapel on the Spelman College campus.

In voicing his concern for the well-being of those who are leaving college today, Dr. Holmes declared his concern was based on the fundamental fact that we are living in a world that has lost its security—political, economic and international—that has in turn lost its confidence, and is beset by fear. As insecurity has passed into fear, he said, so has fear passed into the cruelty and violence that is to be found everywhere in the world today.

Morehouse College seniors will celebrate class day at 3 o'clock this afternoon in Sale Hall chapel with a program including the traditional class history, poem, oration and dedication of the class tree. Chief event of the program will be the presentation of the class play, "Toussaint L'Ouverture, a dramatization of the life of the great Haitian liberator, which has been written by John Henry Young III, of Pine Bluff, Ark., and which will be played by an all-senior cast. The exercises will be open to the public.

Alumni of the college will return to the campus this morning for their annual meeting, at which tributes will be paid to life and services of the late Dr. John Hope. Following the meeting, which is scheduled for 11 o'clock in Sale Hall chapel, the graduates will march in Dr. Hope's funeral procession to the Atlanta University campus and lay a wreath. The alumni will be the guests of President S. H. Archer at a luncheon at the president's residence at 1 o'clock.

**BUCHANAN HEARS THORNWELL JACOBS**  
Oglethorpe President Calls for Return to 'Old-Fashioned God.'

STOCKBRIDGE, Mass., June 7.—(AP)—Dr. Frank N. D. Buchanan, leader of the Oxford group, rallied the group and called for a "God-guided, life-changing" march on the republican and democratic national conventions.

The next move of the group, which ended its ten-day assembly with a mass demonstration today, is to New York for a huge meeting in the famous old Metropolitan Opera House tomorrow night.

Then, Dr. Buchanan declared, two cardinals of group leaders would go to Cleveland and later to Philadelphia for the conventions.

A call for a return to the "old-fashioned prayer and the old-fashioned God" was sounded by Dr. Thornwell Jacobs, president of Oglethorpe University, Atlanta, Ga.

Dr. Jacobs outlined various changes of attitude in the past and declared the masses of today were demanding that wealth be distributed.

"Literally millions of citizens are demanding the earnings of others as a right," the university head declared. "The problem is not one of politics, economics, ordinances—it is a problem of the human soul."

Dr. Jacobs asserted there could be no happiness in America until man's honesty and faith in God were restored.

Before the meeting Dr. Jacobs, in an interview, said he was not a follower of the group but was "in hearty sympathy" with its aims for a spiritual reawakening and a living Christianity.

**RED CROSS AID IS SPED TO 200 STORM VICTIMS**  
LAWTON, Okla., June 7.—(AP)—Red Cross, state and private relief agencies rushed aid into the wind-swept western part of Comanche county today to more than 200 persons, left homeless by a series of four smashing winds.

The storm was one of a series which howled across Oklahoma in the last three days, killing seven persons in widely scattered parts of the state Thursday, Friday and Saturday, and sending property damage into hundreds of thousands of dollars. Two were killed in Kansas.

Flood threats had not yet passed in western Oklahoma, first to feel the brunt of the savage winds.

**LEE MODEL ACCEPTED.**  
BALTIMORE, June 7.—(AP)—The judges in a limited contest for the design for a \$100,000 heroic equestrian bronze statue of General Robert E. Lee and Thomas J. Jackson, to be erected in Wyman park selected today a model submitted by Mrs. Laura Gardin Fraser, New York sculptress.

# Anti-Toy Gun Drive Launched in Gotham

NEW YORK, June 7.—(AP)—A "no-toy gun" movement, intended to discourage gifts of toy pistols and guns to children by their parents, was launched tonight by the New York State Conference of Polish Clubs.

Edward C. Rybicki, president of the conference, announced inauguration of the movement "because of the alarming increase in the number of homicides in which children in their early teens are responsible."

Instead of guns, the conference suggested constructive toys, starting with blocks and dolls and working up through structural sets, work benches and carpenter tools.

**FORTUNATE DREAM.**  
BALTIMORE, June 7.—(AP)—Al Richs had a bad dream today. He dreamed someone was going through his pockets. Suddenly he awoke and realized it was not a dream—that a negro was bending over him and drawing a watch from his pocket. Richs sprang up with a shout that attracted a policeman. The officer caught the negro.

# OFFICER IS BURNED AT ST. MARKS, FLA.

Vacationists Again Warned as Atlanta's Hospitalized at Grady.

Atlanta vacationists were again warned yesterday against the dangers of over-exposing themselves to the sun after the first serious case of sunburn this summer was reported at Grady hospital.

The victim of the sun's rays was Patrolman J. M. (Jerry) Jackson, 25, of 724 Ponders avenue, attached to the signal division, who was admitted to the hospital yesterday morning suffering from first and second degree burns of the entire body.

Patrolman Jackson had gone fishing at St. Marks, Fla., with a group of fellow officers over the week-end. His condition was said to be serious.

Doctors pointed out that the sun's rays reflected upon water, although striking indirectly, burn the surface of the skin as effectively as fire.

Patrolman Jackson was wearing only bathing trunks while exposed to the sun, it was said.

**MAN INJURED IN FIGHT ON MARIETTA STREET**

Struck on the head with a piece of concrete weighing five pounds during a brawl behind a motion picture theater at 771 Marietta street, John Jones, 38, of 938 Hampton street, N. W., suffered a fractured skull and was admitted to Grady hospital yesterday afternoon.

A man listed as Charles L. Swatman, 25, of 477 Luckie street, was taken into custody in connection with the case. He was first charged with intoxication and disorderly conduct, but later a charge of assault with intent to murder was placed against him.

**LIQUOR STILL IN CAR IS NOT AGAINST LAW**

SAVANNAH, Ga., June 7.—(AP)—The carrying of a liquor still in an automobile is no violation of Georgia law, Solicitor General Sam A. Cann decided.

A man arrested in possession of such equipment was freed after the authorities could find no statute or judicial ruling under which he could be prosecuted.

**RIVERS IS RE-ELECTED AND ENDORSED BY BAR**

Alapaha Group Says Constitutional Governmental Is State's Need.

NASHVILLE, Ga., June 7.—(AP)—The Alapaha Judicial Circuit Bar Association re-elected E. D. Rivers, of Lakeland, its president last night and endorsed him as a candidate for governor.

**HEADS PINE PARK**

GREENVILLE, Ga., June 7.—(AP)—C. W. Wright, of Griffin, became superintendent of Pine Mountain National park. Wright is a former resident of Meriwether county.

**WOMAN DIES, MAN HURT IN SWAINSBORO CRASH**

SWAINSBORO, Ga., June 7.—(AP)—An automobile overturned several times after whirling off the highway near here tonight, crushing to death an unidentified woman and critically injuring a man listed at the Statesboro hospital as Sidney Wright, a Dublin automobile salesman.

Pending an investigation, meager reports did not give the cause of the accident.

Hospital attendants said the salesman had no chance to recover. He was unconscious.

**SPARTA MAN ARRESTED IN SHOOTING AFFRAY**

SPARTA, Ga., June 7.—W. E. Lanthrip is being held here in connection with the shooting of Dave Murphy, Hancock county farmer, Saturday night. Lanthrip claims self-defense and blames an argument over wages for the affray. Murphy was rushed to a Sandersville hospital. His condition was reported critical.

**COLUMBUS CONSIDERS PARKING METER USE**

COLUMBUS, Ga., June 7.—(AP)—City officials undertook a study of parking meters to determine their feasibility for solving local parking troubles.

**STATE DEATHS**

RALPH M. STEPHENS, SOCIAL CIRCLE, Ga., June 7.—Final rites for Ralph M. Stephens, of Louisville, Ky., were held today in Social Circle. Mr. Stephens and his assistant were killed when their truck wrecked Saturday morning near Forsyth, Ga. Mr. Stephens is survived by his parents, Mr. and Mrs. Golden Stephens, and one brother, Herman Stephens, of Louisville, Ky.

**MARTHA BERRY LAUDS CABIN SUNDAY SCHOOL**

Cobb County Institution Marks 24 Years of Service.

MARIETTA, Ga., June 7.—A woman who "has a little red string on bright boys and girls" in the mountains and raises the money to get them educated—Miss Martha Berry—Sunday paid tribute to the founders of Log Cabin Sunday school at their 24th anniversary celebration and said the unique little interdenominational institution in Cobb county had the same aims and purposes as her now famous Berry schools, near Rome.

She compared the cabin which was the first location of the Sunday school to her cabin in the mountains and said that the Log Cabin Sunday school was a plant valued at \$10,000 to the rapid rise of her school. She said "she fell more and more in love with Sunday school work, when she started on a mission to the mountain boys and girls and lauded highly the good being done in Cobb county by an institution similar to her own."

**Refers Boys**

Reminiscing, she admitted a preference for boys, saying "they could help me more in my school." She attributed the success of her work and all enterprises of a similar nature to "the leading of the Master through all the years."

Mrs. Inez Henry, Miss Berry's executive secretary, followed Miss Berry as speaker on the anniversary program. She said the Log Cabin Sunday school and the Log Cabin Sunday school are the same... everything that is successful is built on love... that is the reason Log Cabin is celebrating 24 years of success... for that same reason the world has beaten a path to the door of the Martha Berry schools."

Founded the first Sunday in June.

**Courageous Living Is Need of Day, Georgia University Graduates Told**

Rev. Franklin Urges Them To Spurn Ease, Comfort and Devote Selves to Goals Rather Than Mechanics of Existence; Sibley Will Speak Tomorrow.

ATLANTA, Ga., June 7.—(AP)—The Rev. Marvin A. Franklin, of Birmingham, Ala., told University of Georgia graduates today creative thinking and courageous living are the greatest needs of the day.

Rev. Franklin, who is pastor of the Highlands Methodist church, delivered the baccalaureate sermon for the 1933 annual commencement of the college.

**STATE BRIEFS**

COTTON BURNED. GREENSBORO, Ga., June 7.—About 15 bales of cotton were damaged in a fire of undetermined origin in the Greensboro bonded warehouse here last night.

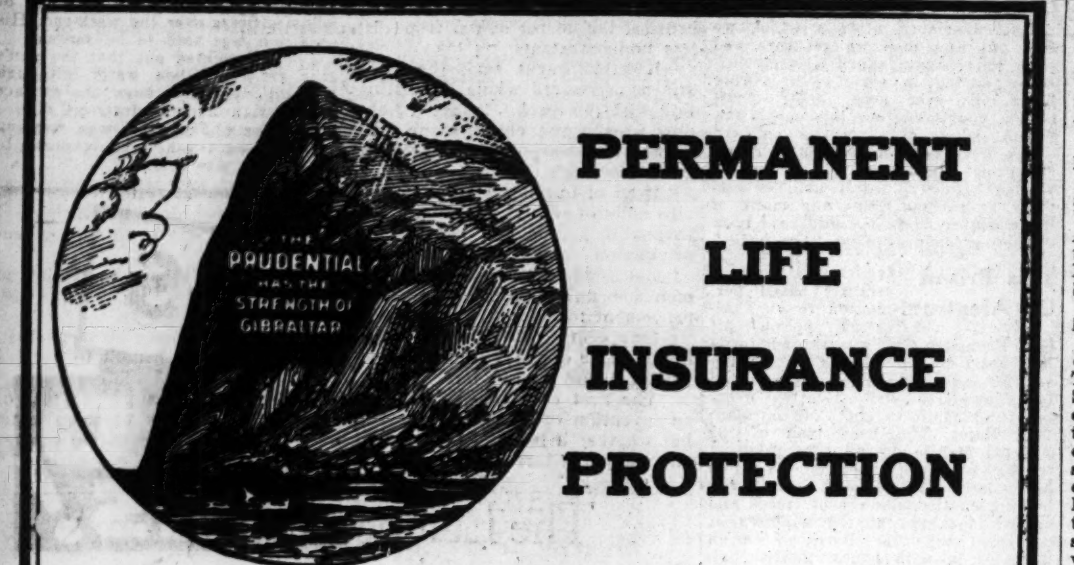

**GEORGIAN KILLS SELF**

BAYONNE, N. J., June 7.—(AP)—John C. Buffington, 31, of 701 West Alabama street, Fitzgerald, Ga., dropped dead today, killed by a powerful poison. Police found in his pocket a note which said, "I am tired of living and there is no other way out."

1912 Log Cabin school was the idea of a group of residents of Log Cabin community, just off the Atlanta-Marietta road. It is non-sectarian and is designed to bring the benefits of a strictly non-denominational religious life to those attending.

On the program besides Miss Berry and her secretary were the Berry male quartet, the Log Cabin orchestra, and an organ recital by Charles W. M. Johnston, of Atlanta.

Trustees of the institution are A. O. Eberhart, R. D. Webb, J. W. Grimes, J. V. Carmichael, O. B. Logan, J. M. Marbut, J. Roy Gentry. Superintendent for 1936 is Edgar Logan.

## PERMANENT LIFE INSURANCE PROTECTION

### ANNUAL RATE, \$5000 LIFE INSURANCE

Age at Issue	Guaranteed Never to Exceed This Maximum	First 3 Years 15% Less (Guaranteed)	4th Year Not at Present Scale (Subject to Change)
20	\$74.55	\$63.35	\$59.60
25	85.80	72.95	68.80
30	100.25	86.20	80.65

## Women Gain Pep, Clear Skin, Youthful Looks with Help of Kidneys

The speed of modern life, worry, and overwork place a severe strain on the kidneys, and women are more afflicted than men. When the kidneys fail to function properly and do not remove approximately 3 pints of acids, poisonous wastes, and liquids from the system each day, these poisons and acids try to escape through the skin, and this often may be the cause of premature age lines, circles under eyes, a muddy complexion, and loss of vitality.

### Other Symptoms

Other devastating and painful symptoms which often may be due to poorly functioning kidneys are: Getting Up Nights, Nervousness, Leg Pains, Dizziness, frequent Headaches, and Cold Feet. Swelling of Joints, Backaches, Loss of Vitality, and Burning, Itching, Smarting Acidity.

### Help Kidneys

Doctors and druggists in 49 countries throughout the world think that the kidneys function more normally with the doctor's guaranteed prescription Cystex (pronounced Siss-tex). Over 500 doctors have written in praise of this prescription. For instance, Dr. C. Z. Rendell, of San Francisco, recently wrote: "Cystex has the power of flushing the kidneys and bladder organs, helping to keep them free from irritating acids and poisons. I can truthfully commend the use of Cystex. Because Cystex is scientifically prepared to soothe, tone, and flush the kidneys and aid in the removal of acids and poisons from the system, it starts to work almost instantly. At the end of the first 24 to 48 hours most sufferers report an astonishing improvement. Within one week you will likely feel and look years younger. Because you have helped your kidneys remove acids and poisons in accordance with the laws of Nature."

### \$10,000.00 Guarantee

Get the doctor's guaranteed prescription Cystex from your druggist today. Put it to the test and let your mirror and your own physical feeling tell you the great good it can do. Under the written money-back guarantee, Cystex must make you feel and look younger, stronger, and more vigorous, and satisfy completely in 8 days or you merely return the empty package and your money is refunded in full. This written money-back guarantee is backed by a fund of \$10,000.00 deposited by the Knox Company, manufacturers of Cystex, with the leading banks of the world, such as: Westminster Bank Limited (Gray's Inn Branch), London, Eng.; Canadian Bank of Commerce, Toronto, Ont.; Bank of America, Los Angeles, Calif. Why look and feel older than you are? Why take chances with any medicine that is not good enough to be guaranteed when you can get the doctor's prescription Cystex guaranteed to satisfy in every way or cost nothing? Telephone your druggist and he will be glad to deliver a package of guaranteed Cystex (Siss-tex).

## SECRET TERRORISM

Prompt action of state authorities of Michigan in apprehending members of the Black Legion, which gained members through threats, and murdered innocent people who stood in its unlawful course, is another warning to persons with warped minds that such secret terrorist organizations have no place in the United States and will not be tolerated.

Since the noted "whitecap" depredations of a secret organization in southern Indiana half a century ago, several secret "rule or ruin" bodies have come into existence, but careful as they were to keep their unlawful acts under cover, they were eventually unearched, the leaders punished and the gangs broken up.

An organization of this nature called the "Black Shirts" came to light in Atlanta a few years ago. What happened to it and its leaders is succinctly told in the following communication from William S. Wier:

I am reminded by your editorial, "The Mole and the Beam," that just a few years back The Constitution, with no help from the other papers, waged a successful war and nipped in the bud a "Black Shirt" movement that could have become as hideous as has the "Black Legion."

That was as fine a piece of journalism as I have ever observed, and the reason such organizations as the "Black Legion" or the "Black Shirts" cannot get foothold in Dixie is that we have some one on the watch to get with courage and foresight.

Captain Evan P. Howell used to my successful journalism rested in the ability to see it coming; drawing his philosophy from the experience of old soldiers in dodging bombshells.

This is the tribute I want to pay The Constitution in this instance. We read and shudder at the terrorism that exists in Germany, where a former paperhanger organized a gang of cutthroats and took over an entire government. He rules by force—prison, torture and murder—for those who oppose his will and edicts.

Not only Jews, but Catholics, Protestants and Masons, are objects of the fury of his sworn adherents. He abolished the religion of the nation and set up his own, with himself as its deity to be adored and obeyed.

Similar ambitions of despotism have ruled the brains of those who originated secret terror organizations in America, but they have been squelched by prompt and courageous action.

However large may be the murderous organization known as the "Black Legion," it will be dissolved as quickly as the others; apprehended leaders and those convicted of crimes will be punished; other members will be ashamed of their connection with the order and fearing punishment will hide that fact and deny it if accused.

## "TAKE YOUR MEDICINE"

The traffic committee of the Atlanta Chamber of Commerce has issued a demand that members of the chamber who are caught violating traffic regulations pay their fines and, not because they chance to be outstanding citizens, attempt to wriggle out of paying the penalty.

The admonition should be obeyed by every good citizen of Atlanta, no matter what his prominence or what "influence" he may possess.

That attitude of "soak the other fellow, but let me go" interference with justice is what clutters up all our courts with delays, engenders a spirit of indifference on the part of jurymen, develops a "what's the use?" feeling among enforcing officers, and encourages the general public to violate traffic and other laws.

The recent increase in apprehensions of violators of the city's traffic laws is a direct result of the attitude of the chamber of commerce.

The recent increase in apprehensions of violators of the city's traffic laws is a direct result of the attitude of the chamber of commerce.

## World's Window

BY PIERRE VAN RASSEN.

## Changing America.

In the winter of 1924 Mr. Phillips Price made a three-month tour of the United States. He had two objects in making the trip. In the first place, he wished to follow the trail taken by his father 30 years earlier. In the second, to study the country, particularly from the agricultural point of view.

At this time Atlanta needs at least twice as many traffic officers as are now on duty. The present force has shown a good record, a larger force would do still better.

## MR. O'CONNOR AS LEADER

Printed elsewhere in this edition is an article by Gladstone Williams, The Constitution's Washington correspondent, on the probable succession of Representative John J. O'Connor, of New York, to the position of democratic majority leader of the house.

Such recognition of the abilities of the New Yorker is the graceful and logical course for the house to take.

Mr. O'Connor, during the long illness of Representative William B. Bankhead, the new speaker, when the distinguished Alabamian was majority leader, ably substituted in the role to which he is now entitled and proved his genius for the post to the entire satisfaction of all members of the party and even to the minority party which admired his generalship.

For the south to attempt to preempt all the major posts in congress would be unwise and impossible. Mr. O'Connor is at present chairman of the powerful rules committee of the house and acting party leader. He is an upstanding, an upright man and a stalwart in the party.

It should not be argued against him that he is a member of Tammany because Tammany is needed by the democratic party.

In the present congress the south has been honored as never before since the '60s. Two of its representatives have been speakers and one the majority leader, and several are chairmen of important committees.

That other southern representatives should desire the post of majority leader is entirely understandable and proper. But that they should recognize the prior claim of Mr. O'Connor and refrain from any contest that might bring a schism in the house is the duty they owe their party and their country.

## MORE TROUBLE FOR EUROPE

Coincident with its other troubles of civil strife and anxiety at Hitler's next move, France fears that the Hapsburg dynasty will be restored to the throne of Austria under the armed protection of Italy.

This move is opposed, at least on the surface, by Germany, France's long-time foe, as Hitler desires to "benevolently" assimilate Austria; also by the "Little Entente," most of which nations were component parts of Austria-Hungary and are now allies of France.

The Little Entente has warned repeatedly that restoration of the Hapsburgs will mean war, and the nations comprising it have been industriously engaged in building up large armies and equipping them with modern devices of war.

It is claimed that the Balkan nations have over a million men under arms and that this force can be greatly augmented in case of need. The entire country from the Swiss frontier to the Aegean sea is ablaze with the war fever, and awaits a decided move that will start the conflagration.

Some two years ago Hitler tried to win Mussolini's acquiescence to his annexing Austria to Germany. He was not only turned down, but when the Nazi putsch in Austria became dangerous, Mussolini posted his troops along the borders of Austria, and Hitler's move dwindled to secret operations.

Plans for the restoration of the Hapsburgs are said to have been made during the Italo-Austro-Hungarian conference in Rome several months ago, attended by Mussolini, Austrian Chancellor Schuschnigg, and Hungarian Premier Julius Goemboes, and it is known that Prince von Starhemberg, recently ousted as co-dictator by Schuschnigg, favors return of the dynasty.

Restoration of the Hapsburgs under the protection of Mussolini would bring about conditions very favorable to Italy, but it would appear that this cannot be done without a clash of arms that would be disastrous to all concerned.

It is doubtful that young Otto will ever ascend the throne occupied for so many years by his ancestors. He is merely a pawn in the diplomatic game being played in Europe and the above-surface discussion of the restoration of the Hapsburgs is a part of a great central European empire of German-speaking peoples.

As the Hollywood horror cycle has passed, it is not felt that the Black Legion in Michigan could get anything for the movie rights.

In the event of two balconies on a building, who rates the upper?

## World's Window

BY PIERRE VAN RASSEN.

## Changing America.

In the winter of 1924 Mr. Phillips Price made a three-month tour of the United States. He had two objects in making the trip. In the first place, he wished to follow the trail taken by his father 30 years earlier. In the second, to study the country, particularly from the agricultural point of view.

At this time Atlanta needs at least twice as many traffic officers as are now on duty. The present force has shown a good record, a larger force would do still better.

## MR. O'CONNOR AS LEADER

Printed elsewhere in this edition is an article by Gladstone Williams, The Constitution's Washington correspondent, on the probable succession of Representative John J. O'Connor, of New York, to the position of democratic majority leader of the house.

Such recognition of the abilities of the New Yorker is the graceful and logical course for the house to take.

Mr. O'Connor, during the long illness of Representative William B. Bankhead, the new speaker, when the distinguished Alabamian was majority leader, ably substituted in the role to which he is now entitled and proved his genius for the post to the entire satisfaction of all members of the party and even to the minority party which admired his generalship.

For the south to attempt to preempt all the major posts in congress would be unwise and impossible. Mr. O'Connor is at present chairman of the powerful rules committee of the house and acting party leader. He is an upstanding, an upright man and a stalwart in the party.

It should not be argued against him that he is a member of Tammany because Tammany is needed by the democratic party.

In the present congress the south has been honored as never before since the '60s. Two of its representatives have been speakers and one the majority leader, and several are chairmen of important committees.

That other southern representatives should desire the post of majority leader is entirely understandable and proper. But that they should recognize the prior claim of Mr. O'Connor and refrain from any contest that might bring a schism in the house is the duty they owe their party and their country.

## MORE TROUBLE FOR EUROPE

Coincident with its other troubles of civil strife and anxiety at Hitler's next move, France fears that the Hapsburg dynasty will be restored to the throne of Austria under the armed protection of Italy.

This move is opposed, at least on the surface, by Germany, France's long-time foe, as Hitler desires to "benevolently" assimilate Austria; also by the "Little Entente," most of which nations were component parts of Austria-Hungary and are now allies of France.

The Little Entente has warned repeatedly that restoration of the Hapsburgs will mean war, and the nations comprising it have been industriously engaged in building up large armies and equipping them with modern devices of war.

It is claimed that the Balkan nations have over a million men under arms and that this force can be greatly augmented in case of need. The entire country from the Swiss frontier to the Aegean sea is ablaze with the war fever, and awaits a decided move that will start the conflagration.

Some two years ago Hitler tried to win Mussolini's acquiescence to his annexing Austria to Germany. He was not only turned down, but when the Nazi putsch in Austria became dangerous, Mussolini posted his troops along the borders of Austria, and Hitler's move dwindled to secret operations.

Plans for the restoration of the Hapsburgs are said to have been made during the Italo-Austro-Hungarian conference in Rome several months ago, attended by Mussolini, Austrian Chancellor Schuschnigg, and Hungarian Premier Julius Goemboes, and it is known that Prince von Starhemberg, recently ousted as co-dictator by Schuschnigg, favors return of the dynasty.

Restoration of the Hapsburgs under the protection of Mussolini would bring about conditions very favorable to Italy, but it would appear that this cannot be done without a clash of arms that would be disastrous to all concerned.

It is doubtful that young Otto will ever ascend the throne occupied for so many years by his ancestors. He is merely a pawn in the diplomatic game being played in Europe and the above-surface discussion of the restoration of the Hapsburgs is a part of a great central European empire of German-speaking peoples.

As the Hollywood horror cycle has passed, it is not felt that the Black Legion in Michigan could get anything for the movie rights.

In the event of two balconies on a building, who rates the upper?

## NEWS BEHIND THE NEWS

BY PAUL MALLON.

## PRANKS CLEVELAND, June 7.—The advance status of the republican convention is somewhat like that of the beauty contest in which the judges have already winked at the favorite.

The other entrants know Handsome Alf is going to get the prize, but nothing can make them like it. In fact, they are getting just a little catty on the side. "They would not say a word against him openly for the world. They know that if they do, and he wins, they are likely to become political wall-flowers for the period of his candidacy. But just amongst us delegates, they are not above making a few side remarks."

For example, a certain eminent mid-west leader has rushed forth with a public denial that he is in the stop-London movement. While he was thus denying with gusto, his best pals were privately circulating among the delegates a typewritten pamphlet of four pages which stated that Landon has false hair and possibly a wooden leg. Specifically, it quoted William Allen White as saying that the Kansas governor had "followed me in and out of the republican party four times" and concluded that Landon's republicanism was a thin veneer.

DIGS. Coy scoffers also circulated among the arriving delegates "the don. This hand-made rumormongering to the effect that Mr. Vandenberg considers himself the better man, that his mind is fixed on heading a really important ticket in 1940 or possibly even in 1936."

And just to add the final democratic touch to the republican gathering, urchins marched through the streets with anonymous handbills headed: "So he won't talk, eh?" The handbills also quoted the White line, but added much more to the general effect that handbill measures had to be taken to offset the pro-Landon publicity in "the Landon-controlled press."

GLAMOUR. These things are all just as much a part of a political convention as the bands and bumping. They signify little more than the glamour of the occasion.

Ordinarily a good rumor can run the rounds of 4,500 politicians and 700 newsmen here within an hour. Ten minutes later they are older than yesterday's newspaper. So also with the anti-Landon circulars. They are much like the same class of material used against Mr. Hoover at Kansas City in 1928 and against President Roosevelt at Chicago in 1932. Thirty days hence many of the circulators of the material will be out on the stump making hot Landon speeches.

SUBTLETIES. Wisest guessers say: Landonites are still hopeful Vandenberg will change his mind about the vice presidency.

Chances of Senator Stewier for the vice presidential nomination depend largely on whether his keynote speech strikes a responsive chord. Landon men are cold to Senator Dickinson as the governor's running mate, figuring Landon is as strong in Iowa as the senator.

The White-Hoover-Fish proposal for a constitutional amendment giving states the right to exact minimum wage laws will certainly go into the slush, but not without a fight. The lines between the lines of Senator Vandenberg's sharp statement invited the stop-Landon boys to rally behind him.

ROUGH LUMBER. There are more platform planks than there are trees in the western forest preserves. Most of them concern the troublesome farm policy. One of the best and briefest of these was secretly composed by ex-Senator Bingham, Senator McNary and George Peck. It reads:

We favor the protection and full price benefit of the American farmer by the American farmer by the effective limitation through tariffs, quotas and otherwise, of all competitive farm imports or substitutes therefor. We favor

## \$30,000,000 in Dixie Paper Mills Will Have Pay Roll of \$7,500,000

Not Only Will Growers of Pine Benefit, But Southern Labor and Commerce in General Will Profit by Industry Born During Depression.

BALTIMORE, Md., June 1.—(AP)—The six new plants, the Record announced, are designed for an estimated production of 1,250 tons of pulp, kraft paper and linerboard from southern pine, an investment exceeding \$30,000,000, the Manufacturers Record said today.

woods" in cutting and transporting pulpwood for 7,500.

This will represent a combined pay roll of approximately \$7,500,000, the Record said.

The three proposed mills for which plans and specifications are now being prepared are:

West Virginia Pulp & Paper Company \$5,000,000 plant for Charleston, S. C., designed for production of 250 tons of kraft linerboard daily.

St. Joe Paper Company \$7,500,000 kraft linerboard plant at Port St. Joe, Fla., with daily output of 350 tons.

Container Corporation of America \$5,000,000 pulp and kraft paper plant for Frandine, Fla.

The three mills now under construction are:

Continental Bag & Paper Corporation \$4,000,000 plant nearing completion at Savannah, Ga., and designed for daily production of 125 tons of kraft paper and 11,000,000 bags.

Crescent Lumber Company \$4,000,000 plant under way at Groves, Ala., to have capacity of 150 tons of sulphate pulp daily, 100 tons of which will be converted into bag and wrapping papers.

The Champion Paper & Fibre Company \$3,500,000 plant on the ship channel at Houston, Texas, designed for daily production of 165 tons of pulp, which will be sent by barge to the company's paper plant in Hamilton, Ohio.

Commenting editorially upon the development of the southern paper mills, the Record said:

"Here is the opening of a new frontier. One which offers a ringing challenge to the initiative and ambition of southern business and particularly of southern labor. It is a challenge to make possible a new paper industry, which will make this country largely independent of foreign sources and create a domestic industry with an output that will reach \$175,000,000 annually at present prices which represents the amount we are now sending abroad for foreign paper, pulp and pulpwood."

### OFFICER IS INJURED CHASING SPEEDER

Partner Later Suffers Broken Leg When Hit by Automobile.

Two members of the motorcycle squad who work together as partners were injured within a short time of each other in different sections of the city yesterday.

Several stitches were taken in the left leg of Motorcycle Patrolman H. B. Greedy after his vehicle struck and skidded while pursuing a speeding car at State and Fourteenth streets at about 4:30 o'clock yesterday afternoon.

The officer's leg was cut by the brake lever. He was treated at Grady hospital. The speeding car escaped. According to police reports, Motorcycle Patrolman O. W. Allen and G. H. Williams "jumped" the car on Spring street, proceeding north.

At Fourteenth street, Motorcycle Patrolman Greedy and W. H. White joined in the chase, pursuing the car on Fourteenth street to State street, where the speeder made a left turn.

The officer was injured while making the turn.

Motorcycle Patrolman White suffered a broken right leg shortly before 8 o'clock last night when, proceeding south on Parkway drive, his vehicle was struck by a car going north on the drive as the car made a left turn into North avenue.

He was taken to Georgia Baptist hospital. The limb was broken above the ankle. According to police reports, the car was driven by L. S. McLean, 29, of 282 Parkway drive, who was charged with reckless driving.

## "Let Your Stars Guide You"

By BERNICE DENTON PIERSON, Foremost American Astrologist

"Knowledge is power and enables men to be masters. Ignorance compels men to be slaves."

"ATLANTA'S WHO'S WHO IN THE ZODIAC."

CHARLES R. YATES.

Charles R. Yates, young Atlantan, whose achievements in golf have made golf history, was born under the zodiacal sign Virgo, September 9.

Virgo is the sign of steadfastness, analytical ability, knowledge. The Sun rising in Virgo shows one keen-minded and discriminating.

The planet Mercury is the ruler of the Virgo sign. The Sun-Mercury position in this chart gives good memory and concentration. It tends to sharpen the intellect, increasing impulses and adding fire and dash to the mind. It also gives great adaptability, quick comprehension, the power to respond to the mental requirements of a situation.

The Moon-Mars position gives great courage, practicality and enterprise. This position also gives much travel in the life, accompanied by personal success.

The Moon-Mercury position creates a love of harmony in all things, environment as well as tastes. This position tends toward steady growth and development. The Moon-Venus aspect bespeaks a warmly human person. His Alma Mater is Georgia Tech. As a student, he was elected president of Amak, highest honorary society at this university. Charles Yates has a way of winning friends and admirers, and each year finds the group around him increasing. He is a "warmly human" person.

The house position of Jupiter bespeaks for him continued honors, great popularity, and since Jupiter is well aspected, a goodly share of this world's goods.

Below are planetary indications, according to the rules of Astrology, one of which may apply to your forecast. Every day these interesting interpretations will be published, descriptive of the influence of the planets at the time of your birth. Your Astrological forecast includes a Sun-chart and planetary interpretations, designated by numbers on your Sun-chart. Watch carefully day by day for your numbers.

Number 304—You get much pleasure from agreeable home conditions and you will evolve a plan to build and maintain a home. You are an excellent host or hostess and take a delight in entertaining. A parent, employer, or superior is likely to thrust some responsibility upon you or your work may get heavier than usual, but you will live up to what is expected and it will prove of future advantage to you.

Number 110—Give special care to your diet and avoid worrying and anxiety. You are proficient in your work and should get recognition. Notwithstanding your unusual ability, you are easily discouraged and sometimes abandon big undertakings. Develop more self-reliance. The indications are excellent for your advancement. Do not hesitate to undertake anything that comes along that seems to offer advancement for you, as you are capable of executing it. Other people may show a tendency to forget promises to you, so get them in writing instead of relying on their word.

Number 118—You are kind-hearted and generous and prone to take the misfortune of others too seriously. Do not try to spread your efforts in too many directions, but settle down to undertake a few things, which will contribute to a prosperous and useful existence. You will feel the expanding but you should be careful to avoid over-expansion or inflation.

Number 711—You are sometimes attracted to those who do not appreciate your refined and sensitive qualities, so there may be some misunderstanding with friends. Show your friends for their intellectual, progressive and artistic qualities.

## PLEDGER P. STARNES

IS KILLED IN CELL FALL

Retired Fireman Suffered Fractured Skull in Fall From Bunk.

Pledger P. Starnes, 61, a member of the Atlanta fire department for 10 years and a resident of Atlanta for 30 years, died yesterday morning in Grady hospital of a fractured skull suffered Saturday night when he rolled off a bunk at police headquarters.

Starnes, police reported, had been found previously Saturday night in the "bull pen" of the fifth floor, where he had been placed by police, with his belt tied tightly around his neck and nearly suffocated. He was revived, his belt removed and he was then placed in a separate cell.

A short time later he was again found lying on the floor of his cell with his shirt wrapped tightly about his neck. Revived again, he went to sleep on the cell bunk.

Mr. Starnes had been in declining health for several years. He resided at 131 Cain street, N. W.

A native of Mableton, Mr. Starnes farmed for a number of years before joining the fire department and returned to that occupation after his retirement. When his health failed he returned to Atlanta.

He is survived by his wife; a son, Pledge Starnes; three daughters, Mrs. Helen Wintley, of Los Angeles; Mrs. Mildred Payne, Atlanta, and Mrs. O. B. Johnson, Adairsville; two brothers, John N. Starnes, retired member of the police department, and G. H. Starnes, and two sisters, Mrs. J. N. Glover and Mrs. Emma Smith, both of Atlanta.

Funeral services will be in charge of Awtry & Lowndes.

## SPECTATORS ROUTED IN GUARD MANEUVERS

HUNTSVILLE, N. J., June 1.—(AP)—More than 200 spectators as well as one of the "armies" were routed by tear gas during national guard maneuvers today.

While troops equipped with gas masks charged two miles through

smoke screens and got to the clatter of blank cartridges from hundreds of machine guns, auto-rifles and regulation rifles, the onlookers fled in tears before a vagrant breeze laden with gas.

Several persons stumbled over logs and brush and a few children became panicky as the tear gas took effect, but no casualties were reported.

FREE! A Year's Supply of Rinso (40 Boxes) with the purchase this week of any of the new

"GENTLE HAND" Thor WASHERS

Pay Only 12c a Day!

## FORD V-8 TRUCK DOES 68,000 MILES WITHOUT TAKING HEAD OFF ENGINE

Some of the Ford V-8 Trucks operated by the Great Southern Trucking Co. have run as high as 68,000 miles with heavy loads. Yet it hasn't even been necessary to remove the engine-heads. Repair costs have been cut to the minimum.

Ford V-8 Trucks fit right into the for-hire hauling business. They get over the roads on

faster schedules, and give customers better competitive service. They can carry the extra tons that spell more profit for the operator, without the cost per mile running into extra expense that whittles down earnings.

The Great Southern Trucking Co. fleet is meeting all of these exacting specifications. Fixed costs are less... licenses, taxes, depreciation, etc. On the highways of America, Ford fleets are proving that they can handle any kind of a truck job—at minimum cost per mile.

You can test the Ford V-8 Truck with your own loads before you actually lay down the money for it. Your Ford dealer will gladly lend you his own demonstrator truck or commercial car. See how it handles your jobs. It won't cost you a penny. It may save you many dollars.

One of the new 131½-inch chassis with closed cab now being used profitably by the Great Southern Trucking Company.

### THE ONLY TRUCK THAT GIVES YOU A V-8 ENGINE... PLUS THESE ADDITIONAL FEATURES

Full-floating rear axle with extra-duty mounted pinion... full torque-tube and radius-rod drive... quick-action safety brakes... big, 11-inch heavy-duty clutch... truck-type four-speed transmission... deep, rugged frame with full-channel-depth cross-members... durable baked-enamel finish.

Any new 112-inch wheelbase Ford V-8 Commercial car can be purchased for \$25 a month, with usual down-payment. Any new 131½-inch or 157-inch wheelbase Ford V-8 Truck can be purchased with the usual down-payment on the new UCC 14% per month Finance Plan.

## They're Off!

Republicans are scurrying to Cleveland, where their National Convention opens tomorrow. They are going to pick an opponent for Roosevelt and shape their platform.

Whatever they do, The CONSTITUTION will keep you informed minute by minute. It will have more than a hundred political writers on the job day and night to assure you of coverage of everything that happens.

Read Your Constitution for All the News First

### THE NEW—THIS DEBONAIR FROCK FOR WARM WEATHER WEAR

Pattern 2627

Newest of the new—this debonair summertime frock—and as smart for home or garden wear as it is for informal visiting! A world of style is displayed in the tiny sun-ray darts—and speaking of the sun, have you noticed how those ever-so-brief sleeves with their saucy slash will expose your arms to old Sol's rays for a grand coat of tan? We know that you'll like the engaging shoulder effect, and casual slashed back bodice (oh, so cool). You can trust Lillian Mae to place those pearly button accents right where they belong! Easy to make this frock—in printed cotton, silk or crepe, or a solid pastel shade. Send for the pattern now!

Pattern 2627 is available in sizes 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40. Size 18 takes 8 1/8 yards 36-inch fabric. Illustrated step-by-step sewing instructions included.

Send 15 cents in coins for this Lillian Mae pattern. Do not send stamps. Write plainly name, address and style number.

Be sure to state size.

Order your copy of our Lillian Mae summer pattern book today! Learn how to make cool, smart clothes and plenty of them, for home wear, vacations, parties, play in the sun. See the special designs for stouts, the sturdy models for children, the latest frocks for brides and bridesmaids, the summer fabric news. Order this book now! Book 15 cents. Pattern 15 cents.

Address orders to Lillian Mae Pattern Department, The Constitution, Atlanta, Ga.

## FIGHT OVER PLATFORM LOOMS IN CLEVELAND

Continued From First Page.

emphatically was talking platform possibilities. A report persisted, however, that several proposals for liberalization of the platform had their origin among the Kansas adherents.

**Farm Subsidies.** A plank pledging the party to support subsidies to such part of the production of American farms as is consumed domestically was considered certain to be offered.

Another in the same category would give a blanket endorsement to the principle of tariff making by negotiation with other countries, the resulting rates to be approved by the senate before taking effect.

A third would strip the president of his authority to fix the gold value of the dollar, within limits, and restore that power to congress.

All were highly controversial and involved departures from historic republican attitudes. The proposals already were arousing resentment among some old-line party leaders.

This group, with some of its members declaring for the objectives on the proposed constitutional amendment, was emphatically against a method of reaching that decision. Some felt that after all the opposition expressed to various New Deal proposals for constitutional change, such suggestion would come with poor grace from the republican party.

**Opposed by Vandenberg.** Senator Vandenberg, of Michigan, arrived explosively opposed to the amendment idea unless no other way could be found to give the states the authority involved.

"I freely concede," he said, "that there must be state authority to deal with problems of this character, inasmuch as manifestly they cannot be dealt with on an interstate basis. But it's for the dependable legal talent to tell me whether the supreme court's decision in the recent case is conclusive or whether we can achieve this purpose by some lesser method than by constitutional amendment."

"I don't know precisely what the supreme court meant nor what the exact effect of the decision will be. I am not for running off to amend the constitution every time something happens."

Representative Snell, of New York, backed by many leaders for the permanent chairmanship of the convention, thought the idea "good sense."

He added: "I think something of that sort has got to be done."

**"Something Must Be Done."** Senator Capper, of Kansas, a Landonite but explaining that he was not speaking for his candidate, said the court's recent decision shows that something must be done, and that "the states must have the power to handle the problem."

Senator Dickinson, of Iowa, who is to be placed in nomination for president, was against the amendment idea.

Former Senator Bingham, of Connecticut, arrived with a complete platform already drafted and a ready admission that many of its planks would start a battle.

In summary the Bingham platform would call for a complete platform agreement with other nations.

Repeal of legislation empowering the President to change the gold value of the dollar.

Repeal of the reciprocal tariff act. "The platform," he said, "should, I think, be brief, express fundamentals, and not attempt to invade the legislative field."

**SOUTHERNERS TO BACK J. LEONARD REPROGLE**

Continued From First Page.

peculiar political setup, want to have their own headquarters.

Only the delegates and alternates from Virginia, the Carolinas, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas, Arkansas, Tennessee and Kentucky are to attend the caucus. Admission will be by their convention credentials.

Georgia's unopposed republican delegation will decide tomorrow for whom to cast its 14 votes for presidential nominee.

There is sentiment in the delegation for Governor Alf Landon of Kansas; Colonel Frank Knox, the Chicago publisher, and Senator William E. Borah, of Idaho.

**Sommers for Borah.** One delegate is definitely committed to Senator Borah. He is Harry Sommers, of Atlanta. Sommers still faces a contest for his seat before the

**Doctor Explains Gall Stones**

The experience of 30 years in treating 20,000 cases of gall bladder irritations described in a new booklet by Dr. E. E. Paddock.

Box 5805, Desk 93, Kansas City, Mo. This booklet tells why surgery in many cases is either unnecessary or inadvisable and how suffering may be avoided by his easy-to-take palliative home medical treatment. Also are described many symptoms of Gall Stones and infected gall bladder. Send for free booklet today. (adv.)

## DRIVE FOR MORE LAWS THIS SESSION PRESSED

Continued From First Page.

end. The aim of administration leaders has been to have conference agreements on the vital tax and relief bills when congress reconvenes June 15, act on them quickly and adjourn congress sine die.

If the tax bill agreement should not have been reached by then, however, it was generally conceded there was some chance for additional legislation beyond that contemplated by leaders.

Prospects for a tax agreement were uncertain despite the appointment of additional senate conferees; more friendly than their colleagues to the house bill and the theory of high taxes on undistributed corporation profits.

The tax measures passed by the house and senate were so widely different as to present the possibility of drafting of an entirely new bill in the conference room.

**Tax Bill Difficulties.** Any effort to draft a new tax bill within less than a week would be confronted with tremendous obstacles, unless the conferees used some substitute already drafted such as the compromise offered in the senate by Senators Black, democrat, Alabama, and La Follette, progressive, Wisconsin.

The Black-La Follette plan would retain the existing flat corporate taxes of 12 1/2 to 15 per cent, but superimpose a high tax on undistributed profits, much closer to the scale imposed by the house than the comparatively low flat surtax of 7 per cent voted by the senate.

Conference beginning tomorrow on the relief-deficiency bill were not giving leaders much worry. They expressed confidence an agreement could be worked out by next week.

**Housing Ship Subsidies.** The Wagner housing and ship subsidy bills faced trouble even if given

the senate floor tomorrow. Senator McNary, republican leader, said he would oppose any action by the senate on controversial measures because of the absence of so many of its members who are attending the republican convention.

Both houses were expected to do little tomorrow but approve pending conference reports. Agreements on the Black lobby bill, the anti-price discrimination measure, and liquor tax legislation were awaiting approval in one or both houses. During the recess conferees also will seek to reconcile differences on two or three of the appropriation bills which must be passed before congress adjourns.

Senate hearings will be resumed Friday on the substitute Gutley coal bill, but action this session was uncertain.

**Deaths by States.** New York and Massachusetts with eight each led the states in fatalities.

Deaths by states: Arkansas, 2; California, 3; Colorado, 4; Georgia, 4; Illinois, 5; Indiana, 5; Iowa, 5; Maine, 2; Massachusetts, 8; Michigan, 2; Missouri, 2; New Jersey, 1; New York, 8; Ohio, 4; Pennsylvania, 4; Rhode Island, 1; Texas, 4; Vermont, 1; Wisconsin, 5.

**SETTLEMENT IS MADE WITH FRENCH WORKERS**

Continued From First Page.

per cent, to recognize the employees' right to join unions and bargain collectively, to put a 40-hour week into effect and to give pay during vacations.

They did not give their approval to the last two measures, however, until "after decisive intervention by the government," the minister stated.

They "made all reserves regarding the economic consequences" of the 40-hour week and vacation pay, Salengro said, and declared these would not be made effective until measures providing for them—introduced into parliament by the four-day-old Blum government—are enacted into law.

**Open Shop Retained.** The employers agreed not to punish workers for going on strike, and promised to make wage increases effective as soon as the strikers return to work. The principle of the "open shop" was retained, by mutual agreement.

The agreement to end the walkout, which began in the metal industries and spread rapidly to the point where it at one time endangered Paris' food supply, was reached between representatives of the General Confederation of Labor and the General Confederation of Production, which includes a majority of the large firms affected by the strikes. Some individual employers also joined in the accord.

Salengro had announced a "partial" agreement had been reached last night. The strike had spread in the north, particularly in the Lille district, with the situation in the Paris region generally stationary. Red flags made their appearance on factory flagpoles in the north with no reports of any attempts by authorities to tear them down.

Paris streets were almost bare of automobiles except for buses, which were supplied with gasoline from army sources. Doctors and hospitals were allowed to get gasoline from army pumps to run their cars and ambulances.

Distribution of milk and food in the capital almost returned to normal, the government reported, but newspaper truckmen continued their strike. Some newspaper appeared with limited editions.

The newspaper, French Solidarity, published by a rightist organization, was seized upon the order of the minister of the interior because of an article declaring "the country is in danger."

Jews and Freemasons are our enemies," the article asserted. "They are responsible for the plight of France."

Attempts of the Croix de Feu, veteran's nationalistic organization, to distribute its own newspaper led to early morning clashes with strikers in which one truck was wrecked.

Reinforcements were called by the Croix de Feu to protect other trucks in front of their printing plant. Police and republican guards locked the street to prevent a large group of strikers from reaching the plant.

**Valenciennes Situation.** Valenciennes was one of the northern cities where the situation was worse. Five hundred unemployed who were dismissed from a steel factory during a strike last year invaded the factory, forcing a shutdown. Citizens were deprived of meat because of a slaughterhouse walkout, while trolleys stopped operation with 350 employees occupying the terminal.

The newspaper Paris-Sol said bank employees of the capital decided to strike tomorrow, preventing most of the banks from opening. Workers of the building trades here also agreed to walk out.

Most of the strikers throughout France made Sunday a visiting day in occupied factories and stores for relatives and friends. Football games, lectures and dances passed the time for others.

Workers holding three Paris department stores gave concerts with hired artists.

The first proposal for the workers to run factories themselves came from strikers in the aviation industry. They told the government they proposed to manage the plants themselves if their demands were refused.

**BOY RECOVERED.** KNOXVILLE, Tenn., June 7.—(AP) The body of 13-year-old Earle Coker was recovered from Little river early today by rivermen and friends. The girl was drowned Saturday afternoon.

## Roosevelt Prepares for 3 Speeches In 4,000-Mile Trip This Week

WASHINGTON, June 7.—(AP)—With 1,500 miles of travel since Friday behind him, President Roosevelt returned to Washington today to remain a little more than 30 hours before starting out on a 4,000-mile speaking tour of Arkansas, Texas and Indiana.

The President arrived in early afternoon from funeral services for the late Speaker Joseph W. Byrns at Nashville, Tenn.

During his brief stay at the White House he will set on a bundle of bills sent to him by congress in the last week and give attention to the three set speeches he is scheduled to deliver at Little Rock, Ark., the night of June 10; at Dallas, Texas, the morning of the 12th, and at Vincennes, Ind., the morning of the 14th.

Swinging back to Washington June 15, he will be ready for the wind-up of congress—if it comes by mid-month. Dependent on whether the national legislature gets away in time, he probably will attend the Harvard-Yale boat races at New Haven, Conn., June 19, four days before the opening of the democratic national convention at Philadelphia.

The executive, a little tired from the senate floor tomorrow, Senator McNary, republican leader, said he would oppose any action by the senate on controversial measures because of the absence of so many of its members who are attending the republican convention.

Both houses were expected to do little tomorrow but approve pending conference reports. Agreements on the Black lobby bill, the anti-price discrimination measure, and liquor tax legislation were awaiting approval in one or both houses. During the recess conferees also will seek to reconcile differences on two or three of the appropriation bills which must be passed before congress adjourns.

Senate hearings will be resumed Friday on the substitute Gutley coal bill, but action this session was uncertain.

**Pyromaniac Sought After Fatal Blazes**

NEW YORK, June 7.—(AP)—More than 100 police searched the Bronx today for an "alcoholic pyromaniac" believed to have set two fires, that resulted in the death of a 62-year-old grandmother and injuries to six others.

The search was ordered after Mrs. Sarah Siegel, 62, dropped her 18-year-old granddaughter from a third-story window in their burning home early today and then leaped to death, her night clothing aflame.

The child, Choda Eber, was taken to a hospital, suffering from burns and possible internal injuries. Her condition was critical.

## CONVENTION AT MACON IS CALLED BY WELTNER

Continued From First Page.

"several hundred delegates opposed to the present state administration and in favor of selecting the best qualified man for governor" already had been selected in various districts.

Voting at the convention will be under the county unit rule, Mr. Weltner announced, but any county, he said, may send as many delegates as it desires. Each delegate will be issued a credential signed by either the district or county chairman, and countersigned by Mr. Weltner.

The executive committee also decided yesterday that each county represented in the convention will be permitted to place in nomination someone it believes best fitted for the governorship. Selection of the convention's candidate will be made by process of elimination, it was said. No nominating speeches will be made.

**Name Present.** Besides Mr. Weltner, those attending the meeting here today were: Judge R. E. Tifton, second district; Senator Allen Chappell, American; E. C. Gammage and G. M. Gammage, Brownwood, third district; W. C. Culpepper and W. S. Allen, Greenville, fourth district; A. Steve Nance, Atlanta, fifth district; Senator John Lewis, Greensboro, Marion, Bennie, Milledgeville, and Marvin G. Pound, Sparta, sixth district; W. C. Hansen and Oscar Peoples, Cartersville, seventh district; Harry Graves, Clarksville, ninth district; Judge Fortson and Dan Magill, Athens, tenth district. The first and eighth districts were not represented.

**RECOVERY IS HERE.** RICHMOND, Va., June 7.—(AP)—P. M. Haight, president of the National Association of Credit Men, here to attend the association's annual convention, expressed the view today that "the depression is behind us and recovery promises to continue through the year."

## BANK ROBBERY RATES TO BE HIKED IN STATE

Other Sections of America Will Get Cut of Twenty Per Cent.

NEW YORK, June 7.—(AP)—So un-economic has the bank robber's business become, the National Bureau of Casualty and Survey Underwriters announced today, that tomorrow rates of insurance against such criminals are coming down by 20 per cent in 35 states.

The reduction, said the bureau, will mean a saving of nearly \$250,000 annually to insured banks.

The improvement in the situation was attributed by the bureau to two factors: First, a rule, promulgated two years ago, requiring banks to keep 65 per cent of their insured money under delayed time lock, and second, the "increased activities of the various law enforcement agencies, particularly those of the United States Department of Justice," which have made bank robbery "an increasingly undesirable business."

Not sharing in the rate reduction are New York, the New England states, Pennsylvania, Delaware, West Virginia and the District of Columbia—because, said the announcement, they already get the lowest available

## GIRL BADLY INJURED IN FALL FROM TRUCK

Stumbling as she jumped from the rear of a moving truck, Miss Beatrice Wilmoth, 20, of R. F. D. 1, Decatur, suffered a fractured skull at about 3 o'clock yesterday afternoon when her head struck a rock in Candler road, near the WSB emergency transmitting station.

She was taken to Grady hospital. Her condition is serious. M. D. League, her father, told police he was driving the vehicle when the girl saw some friends in the road. She shouted for him to stop, and, as he slowed to a halt, she jumped.

# JOIN THE "AMERICAN" PARTY

**TEAM UP** with the million and more who make the "American" Party one of the biggest of its kind in the country. Its members may not have the same slant on politics—but they all pledge loyalty to "American."

For the "American" Party is made up of motorists who vote for the American Oil Company's Amoco-Gas and Orange American Gas at The Sign of Greater Values from Maine to Florida.

Amoco-Gas began its career as the original candidate in the special motor fuel field. That was 21 years ago and each succeeding year has won and held the votes of new users. Amoco's history has been all performance—not just promise.

If you want to "look at the record" ask the American Automobile Association, and learn that Amoco-Gas holds more official A. A. A. world's records than any other gas or motor fuel. Amoco-Gas will take you further—smoother—and for less. It costs a bit more per gallon at the pump—is worth much more—does more.

Or if you're a "regular" party voter, there's Orange American Gas, the "regular" party leader for years, and the best at regular price. Made from a pure petroleum base, it has no added chemicals—leaves no harmful deposits. These features and American's new refinery methods give Orange American Gas a new action that is getting action everywhere.

Join the great "American" Party yourself! Vote at The Sign of Greater Values—from Maine to Florida and inland!

## HARMONY PLEAS FAIL TO HEAL G.O.P. SCHISM

Continued From First Page.

question of a constitutional amendment to facilitate state labor legislation being the foreground. Sharply conflicting suggestions on money, farm and tariff planks also were poured into the hopper.

From outstanding republican figures came talk of putting forward an amendment, if necessary, but opposition was voiced loudly and promptly.

**Matter of Attention.**

The activities here of Vandenberg became a matter of marked attention. Not long after stating that protracted and careful consideration should be given to candidates by the convention before a choice is made, and reiterating that he would not consider the vice presidential nomination, Vandenberg visited Knorr headquarters and conferred with leaders there. All were uncommunicative about details of what had been discussed.

The Michigan senator said he would call at the headquarters of other candidates also, including Landon. Hearing this, John Hamilton, Landon organizer, said he would visit Vandenberg.

Hamilton disclaimed also, at a press conference, that the senator's sharp warning against a bandwagon raid was directed at the Kansas governor.

During the day it became apparent that the long-foretold Vandenberg "dark horse" boom—whether it picks up momentum or not—had at least started.

Early arrivals among the Michigan delegates said the state's 38 votes would be cast for Vandenberg as long as he wanted them. Arrangements were made to put his name before the convention.

**Hope Not Given Up.**

It became clear, also, that many Landon supporters have not yet given

up hope of putting across a Landon-Vandenberg ticket, despite the Michigan senator's reiteration that he "meant it" when he said he would not accept a second place on the ticket.

Hamilton, at his press conference, emphasized that the late Charles Curtis had said flatly he would not take the vice presidential nomination with Herbert Hoover, but later had done so.

It was known, however, that Landonites were combing the field for a running mate—preferably an easterner—should Vandenberg remain firm.

Senator Dickenson, of Iowa, who has been mentioned as a "dark horse" possibility for the nomination in case of a deadlock, arrived this afternoon with word that he was "not a member of any coalition" to stop anyone.

Dickenson said he expected to receive the votes of the Iowa delegates.

Former Senator Watson, of Indiana, told newspapermen that Landon was "so far in front he can be stopped unless those fellows organize compactly." He added he saw no signs of such an organization.

Similar views were expressed by Everett Sanders, former chairman of the republican national committee, who said it looked like Landon would be nominated without much trouble.

Vandenberg lashed out at top-of-the-ticket bandwagons. He mentioned neither Landon nor any other candidate by name, but said:

**Must Be Crusade.**

"I am more interested in principles than in personnel. If this convention is true to its principles it will find out precisely where every man stands before it gives anybody a vote for anything. Circuses have bandwagons. This is a crusade or it's a failure."

The names of Representatives Wadsworth and Snell, both of New York, and the latter the national committee's choice for permanent chairman of the convention, were heard frequently. In the western sector, Senator Steiwer, of Oregon, the convention keynoter, was discussed. Some close to the Oregonian argued, however, that he would not be interested

in a second place on the ticket. Robert A. Taft, who carries Ohio's powerful delegate vote as a "favorite son," was among others mentioned.

In the presidential camps of Colonel Frank Knox, of Chicago, and Senator Borah, of Idaho, less attention apparently was being paid this second-place question. From both came renewed assertions that their men were gaining in first place strength as more and more delegates poured into the city.

Talk continued of the possibility of a coalition to "stop Landon," but managers for both Borah and Knox reiterated that they had not joined in such a movement. Into this coalition discussion, which buzzed in increasingly crowded hotel corridors and in closed rooms, the name of Frank O. Lowden, former governor of Illinois, continued to pop up.

As for the platform, the statement last night of former President Hoover that he favored a constitutional amendment if necessary to allow the states to legislate against "sweated wages and hours," turned renewed attention to the subject.

Senator Vandenberg counseled study before action along this line. He asserted, however, that if state labor legislation could be assured only by a constitutional amendment, he would "emphatically agree."

**To Favor Relief.**

On other questions, geographical splits arose. Sharp division was evident among Landon supporters from the east and west. Some proposed liberal planks brought forward from the west plainly were anathema to conservative easterners.

Senator Borah's statement yesterday that no platform plank should favor a "return to the gold standard," in itself will cause loud and long controversy. The farm plank question has been less in the open, but it would violate all precedent if there was any immediate and general agreement upon how that many-sided problem should be dealt with.

Less likelihood of a protracted quarrel appeared on the major questions of relief and the budget. It was the consensus of observers here that the republican chieftains would continue on the relief road they have been traveling recently—favoring a return of relief administration to the states, with federal government paying most of the cost, but the states contributing.

It was taken as axiomatic that a call would be sounded for balanced budget at the earliest possible moment.

The swiftly shaping preliminaries of the convention itself pounded along at a faster tempo as a steady stream of delegates and visitors poured into the city. The difference of the atmosphere in the hotel lobbies was marked as compared to yesterday.

There was more of an air of excitement. The crowds were bigger. Virtually all the principals and the delegates themselves will have arrived by tomorrow, setting the scene for a series of state delegation caucuses and lobby discussions in the last day before the convention itself actually gets under way.

**CONSTITUTIONAL CHANGE OPPOSED BY BORAH**

WASHINGTON, June 7.—(AP)—Senator Borah, of Idaho, a candidate for the republican presidential nomination, said tonight he was not in

favor of committing his party to a constitutional amendment to give states express authority to fix minimum wage laws.

A statement just before leaving for the Cleveland convention, he asserted that "we are getting unduly excited over this question" and urged that the party attempt to work out a solution without a constitutional amendment.

The Idahoan yesterday spoke out strongly against adoption of a party plank calling for a return to the gold standard.

Borah said: "I am not in favor of committing the party to a constitutional amendment covering the minimum wage decision. We are getting unduly excited over this question. It is unfortunate that the opinion had to be delivered just before convention days."

"Let us go to work and get out a solution without a constitutional amendment. I think we can. This was a 5-to-4 decision, and with all due respect to the majority opinion I do not think it is standing."

Borah said he was "not so confident as I study the problem we can draw a law which will stand even under the majority opinion."

What marvelous faith we are exhibiting in our constitution and our dual system to rush out and declare for an amendment to the constitution on a 5-to-4 decision.

"Do not the advocates of an amendment realize that with the multitude of constitutional questions up for consideration we cannot consistently limit the matter of amendments to the minimum wage question? I haven't any doubt that the states now have the power to deal with the minimum wage and it will be so determined after full investigation. In any event let's not try to amend the constitution as a matter of political expediency."

**O'CONNOR IS BOOMED FOR MAJORITY LEADER**

Continued From First Page.

speaker beyond any precedent of doubt at the time of one of the earlier "wreckers" when, as it is frequently developed, he failed to muster a corporal's guard of support.

But for the influence of more sober-minded members of the southern bloc, Representative O'Connor, by virtue of his effective performance as acting leader during the prolonged illness last session of Speaker Bankhead, has so commended himself to his democratic colleagues as to leave no doubt of his election. The New York member bloc went through practically the entire first session of the 74th congress in the dual position of leader and rules committee chairman. It was not until last January that Mr. Bankhead found himself recovered sufficiently to resume his duties in Washington.

**Bankhead's Tenure.**

Frail of constitution and suffering from a heart ailment which his doctors insist demand careful treatment, Bankhead was unable to do more than maintain the active grip on the reins of house control as have many of his predecessors. For this reason the dual responsibilities of Representative O'Connor in the past will be the rest of the session. He must serve as leader, rules committee chairman and a sort of assistant speaker—something more than the speaker's right hand.

A robust figure, which is the product of his virile Irish stock, the congressman seems adequately able to stand up under the strain.

Although he had been a candidate for the speakership at the time Mr. Byrns was elected, when the sudden death of the late speaker came as a great shock to his colleagues and it was realized it would be necessary to elect a successor immediately, it was Mr. O'Connor who promptly laid the veterans of the party organization that he was ready to offer the resolution naming Bankhead as speaker. He did make the motion and it was carried by a large majority.

Impressive Ceremony.

The scene constituted one of the most dignified and impressive ceremonies witnessed in the house in a quarter of a century. Irrespective of the members' sobriety and startled by the sudden death of Speaker Byrns, who had wielded the gavel only the day before, voted in hushed silence to complete the necessary organizational structure with only the somber voice of O'Connor heard in offering the resolution.

There was no exultation as is customary over the election of a new speaker. O'Connor, with obvious dignity and personal sadness, simply reminded the congress of its duty to the American people to keep the legislative process and program in operation.

The big triumvirate of the house has been Speaker Byrns, Majority Leader Bankhead and Rules Committee Chairman O'Connor. They put their heads together and worked in close co-operation in driving through the administration's far-flung program.

Now Speaker Byrns is gone, but Bankhead and O'Connor, who have been close friends and co-operators for 14 years, are carrying on. Rival candidates though they were for the majority leadership at the beginning of the present session, when the Alabama man won through his alliance with Speaker Byrns, they have worked in the closest harmony and with a perfect understanding, which explains the magnanimous action of the New Yorker in placing Mr. Bankhead's name in nomination for the speakership.

**SCATTERED SHOWERS AIDING PARCHED SOUTH**

Continued From First Page.

the present drought.

Replanting was reported as under way in some sections of the southeast where crops are totally lost. In other areas seedling six weeks ago have not yet sprouted.

**SECRETARY VISITS FRIENDS.**

COCKEYVILLE, Tenn., June 7.—(AP)—Secretary of State Cordell Hull left the cares of his official post behind him today as he visited with old friends after coming here to inspect his farm. Secretary and Mrs. Hull arrived in Nashville yesterday for the funeral of Speaker Joseph W. Byrns.

## REPUBLICANS SEEKING SECOND PLACE CHOICE

Hopes for Landon-Vandenberg Ticket at Cleveland Meeting Fades.

CLEVELAND, June 7.—(AP)—A situation similar to that in Cleveland, when the republicans met in Cleveland and experienced difficulty in obtaining a vice presidential candidate, appeared likely tonight to be repeated this year.

Already, the hopes of some republicans for a Landon-Vandenberg ticket have been upset by the declaration of the Michigan senator that he would not accept the vice presidential nomination.

Principal attention tonight centered naturally on the contest for the presidential nomination, but those who gave serious thought to the second place on the ticket found no definite trend for any one candidate.

In 1924, Senator Borah, republican, Idaho, was approached by President Coolidge as a running mate, but the negotiations were terminated by the Idahoan's laconic query: "Which end of the ticket?"

Later, Frank O. Lowden, of Illinois, turned down the nomination and an attempt by supporters of former Senator Burton, of Ohio, to nominate him failed. Charles G. Dawes then was named.

**Already Spoken.**

Arriving in Cleveland this morning, Vandenberg, whose friends are boosting him for the presidency, said with reference to the vice presidency: "I have already spoken with finality on that. My statement means exactly what it says."

Agers said they were too busy getting their presidential candidate nominated to worry about the vice presidency. Similar word came from the headquarters of Senator Borah and Colonel Frank Knox, of Chicago.

Some republican chieftains were reported to feel that the party should have a uniform, was loudly cheered as he reviewed the troops, who marched to the arch of Constantine, but did not pass under it.

Italy's new artillery-infantry "drew the attention of military experts. It consisted of field pieces carried by infantrymen."

Imposing in today's files were scores of tanks, trailer-mounted artillery, flame-throwers and manned by fantastic-looking, asbestos-clad soldiers of the chemical battalions. Toward the end of the processions the tiring multitudes were treated to the spectacle of a huge captive balloon, towed by a corps of perspiring air corps groundmen.

**Triumphal Arch.**

It was the second time that the triumphal arch of the first Christian emperor of Rome had been used to mark the end of the processions of the ancient glories of the eternal city. Marshal Italo Balbo, returning from his flight across the Atlantic in 1933, searched his daring squadron along the same route to salute Il Duce.

No bit of symbolism which characterizes all fascist displays of power was omitted today. Stands for the review were erected along the broad

was picked up in Hot Springs, Ark., and brought back for trial after he made a violent fight against extradition.

**Three Turn State's Evidence.**

The jury had no sooner been chosen than three of the defendants—Peter Beltrami, David Marcus and Al Weiser, all bookers of women—pleaded guilty and turned state's evidence. At the state closed its case, Jack Ellens, another defendant, also pleaded guilty.

Then Dewey launched his parade of prostitutes, madame and procurers. In all he produced 86 witnesses, most of whom had been taken into custody in raids on brothels the nights of February 1.

He had had 120 prisoners under his care since the raids, but he felt it unnecessary to bring them all to the stand to tell of the way in which the vice syndicate leaders reputedly took \$10 a week from each prostitute for "protection."

**ITALY'S ARMED MIGHT REVIEWED BY EMPEROR**

Bronzed Conquering Legions of African War Parade in Historic Rome.

ROME, June 7.—(AP)—King Victor Emmanuel III, newly-declared emperor of Ethiopia, reviewed today thousands of bronzed troops who won him that title in a monster empire celebration of victory.

At his side at the victory arch of Constantine stood Marshal Pietro Badoglio, who commanded the conquering legions in Africa.

The welcome to the home-coming troops was staged to coincide with Italy's "Constitution Day," commemorating the charter of Italian unity drawn up under King Charles Albert, of Sardinia, in 1848.

One familiar figure was missing from the latest fascist spectacle, for Premier Mussolini remained at his summer home at Rocca del Caminate, Badoglio is cheered.

Marshal Badoglio, wearing a plume and a khaki uniform, was loudly cheered as he reviewed the troops, who marched to the arch of Constantine, but did not pass under it.

Italy's new artillery-infantry "drew the attention of military experts. It consisted of field pieces carried by infantrymen."

Imposing in today's files were scores of tanks, trailer-mounted artillery, flame-throwers and manned by fantastic-looking, asbestos-clad soldiers of the chemical battalions. Toward the end of the processions the tiring multitudes were treated to the spectacle of a huge captive balloon, towed by a corps of perspiring air corps groundmen.

**Triumphal Arch.**

It was the second time that the triumphal arch of the first Christian emperor of Rome had been used to mark the end of the processions of the ancient glories of the eternal city. Marshal Italo Balbo, returning from his flight across the Atlantic in 1933, searched his daring squadron along the same route to salute Il Duce.

No bit of symbolism which characterizes all fascist displays of power was omitted today. Stands for the review were erected along the broad

new empire way, running from the colosseum past the excavated remains of Trajan's forum to the massive Victor Emmanuel monument, where lies Italy's unknown soldier of the World War. Mussolini does not allow Italians or the outside world to forget the disillusionment here over the post-war conduct of former allies.

**ICKES BLASTS LANDON AS LACKING IN VIEWS**

Continued From First Page.

of the liberty-loving du Ponts, they will have a final hurdle to make.

**No Forthright Views.**

"Fortunately for them, they do not have to feel any concern about the view of Governor Landon, because, since he was discovered by William Randolph Hearst and his fellow wisemen from the east, Governor Landon has had no clear-cut, forthright views at least none that he has ventured to express openly."

"The final hurdle that the republican platform makers will have to take will be William Randolph Hearst himself. As the discoverer and principal backer of Governor Landon, there is reason to believe that Publisher Hearst will do the final editing of the platform draft."

ICKES discussed a possible G. O. P. move to back a constitutional amendment to provide legislation invalidated by the United States supreme court in its recent decision outlawing New York's minimum wage law for women.

**The Dilemma.**

"It may be," he said, "that the republican national convention, following the lead of the Young Republican party of New York state, would like to make such a friendly gesture to the wage earners of the country as would be implicit in a plank advocating at least establishing minimum wages and maximum hours."

"On the other hand, if the platform is to be consistent with the expressions of republicans and Liberty League leaders, it will either have to be silent on this important question or it will have to declare its adherence to the principle announced by the supreme court. Here is a task for the most adroit of verbal tightrope walkers."

**Attacks Official.**

ICKES' speech, approved by the democratic national committee, was the opening of his personal part in the presidential campaign, an attempt to woo progressive republicans with whom he was once allied, to President Roosevelt.

Referring to the G. O. P. platform as "this expected progeny, the result of the meekness between the republican party and the Liberty League," he gave these descriptions of the leaders who will write and support it:

"Dr. Herbert Hoover, of Palo Alto, Cal., has been engaged as obituary man."

"Dr. William Allen White, of Emporia, Kan., specialist in plastic surgery." The editor recently suggested the republicans back a minimum wage and maximum hour plank.

"Dr. Frank Knox, the well known orthopedist of Chicago," who is opposing Landon for the presidential nomination.

"Dr. Walter F. Brown, of Ohio, will be the dietician."

Shouse a We Nurse. "Jouett Shouse will volunteer as wet

nurse."

"The famous Doctors du Pont will stand by with a pulmotor in case of need."

"William E. Borah, if still present, will be granted the privilege of supplying an anti-monopoly bib, as well as a tucker to protect against the chilling blasts of foreign alliances."

"Frank G. Lowden, of Illinois, will present a suit of overalls and a toy pitchfork so that the child can play at being a farmer."

"Clifford Pinchot, of Pennsylvania, will supply a conservation romper done in his best style."

ICKES charged that, despite Pinchot's "perfect performance" of one of his parlor tricks, the republican party continues to be the party of Ballinger and Fall and Sinclair; the party of the ruthless exploiters of our natural resources."

**NEGROES SLASH YOUTH AFTER MINOR CRASH**

A young motorist was slashed with a knife and seriously wounded by the negro occupant of a car following a minor collision between two automobiles at Piedmont avenue and Curry street shortly before 6 o'clock last night.

The motorist, Louis Coppedge, 21, of the new Macore highway, was admitted to Grady hospital. He suffered severe wounds of the left arm and left side.

According to his companions, whose names were not learned, several negroes were in the machine and began to argue when the drivers were surveying the damage. They fled after Coppedge was wounded.

**FIRST LADY IN CHICAGO.**

CHICAGO, June 7.—(AP)—En route to Des Moines, Iowa, to deliver a commencement address Mrs. Franklin D. Roosevelt, stopped off in Chicago tonight for several hours' rest before continuing her journey.

**for SUNBURN**  
PLAY SAFE  
USE NOXZEMA

Ends pain—doesn't stain

DON'T suffer needlessly from hot, painful sunburn. Play safe. Use the treatment that doctors, nurses and chief life guards in charge of First Aid Hospitals at the big beaches everywhere use—Noxzema Skin Cream. Cooling, soothing, greaseless—will not stain clothes. Get a jar at all drug stores.

**\$15,750,000 A YEAR**

sounds too big to mean much, doesn't it?

**\$1,312,500 A MONTH**

is still a vague sort of sum to most of us

**\$302,904 A WEEK**

stays a trifle on the dreamy side

**\$43,272 A DAY**

we're getting warm now; we can almost understand it

**\$1,803 AN HOUR**

and THAT'S a lot of money in anybody's language especially when that much money is going out

**EVERY HOUR!**  
to Georgians for Georgia

More than a million dollars a month—paid out in wages, spent with merchants and dealers, paid in taxes—is one of the Georgia Power Company's principal contributions to Georgia's business activity, her prosperity and her social advancement.

This sum averages \$302,904 a week, \$43,272 a day, \$1,803 an hour, EVERY HOUR—24 hours a day, seven days a week, 52 weeks a year—pouring out into Georgia channels of trade, giving jobs to Georgia people, sending men and women and children into Georgia stores with money to spend, making more jobs possible, creating a bigger market in Georgia for Georgia products, increasing opportunities for Georgians in Georgia.

This money builds highways, it educates children, it supports churches. It touches the life of every county in the state—not only the counties we do business in, but all the other counties as well. It benefits every Georgian—including yourself!

The \$15,750,000 being spent by the Company in 1936—in payrolls, purchases and taxes alone—includes \$6,500,000 in salaries and wages to 4,400 employees, and every one of them lives in Georgia. It includes \$7,000,000 worth of materials and supplies bought from Georgia firms or from firms represented in Georgia and employing Georgia people. It includes over \$2,250,000 in taxes, of which the greatest part is paid to the state, the counties, the towns and the school districts of Georgia.

Your monthly electric bill buys for you electric service that ranks with the best and the cheapest anywhere. But it does much more than that, for your payments, joined with those of 150,000 other Georgia homes, offices, stores and factories, are playing a big part in Georgia's prosperity and progress. That money, in the hands of a Company whose interests are all wrapped up with Georgia's interests, is much like the music in the song—"It goes in here . . . and comes out here!" Mighty little of it remains in the hands of the Company. Mighty little of it goes outside the state. Most of it is paid out as fast as it comes in—to Georgians for Georgia!

## -- SAN FRANCISCO --

By LEBBEUS MITCHELL

WHAT HAS GONE BEFORE: Mary Blake is grateful to Blackie Norton, proprietor of the Paradise Music Hall on San Francisco's Barbary Coast, for having given her a job as a singer when she was up against it, and refuses his offer to tear up her two-year contract when she gets an offer from Jack Burley to sing at the Tivoli Opera house. But when Blackie takes her gratitude for love (even though she thrills at his touch) she is frightened, and leaves him for the Tivoli. Burley is personally interested in Mary, and is opposed to Blackie's running for alderman to get better fire laws for the coast. Now go on with the story.

## INSTALLMENT VI.

"But Mr. —" She hesitated for words that must carry a wound, and he hastened to add:

"Don't try to answer me now. I just wanted to let you know how I felt. Good luck, dear!" He bent over her hands, kissed them and quickly left the dressing room. Tears came into Mary's eyes as she stood motionless, waiting him leave, her thoughts with Blackie.

Blackie Norton's thoughts had been concerned with her—and not as gently, as regretfully as Mary's had been with him. At that moment Blackie and Babe were standing in the lobby, the former in immaculate evening clothes. It was there that Burley, after a brief call at his mother's box in the circle, came upon them and stopped in surprise.

"Well, good evening, Norton. I didn't know you were a first-nighter!"

"I am tonight. I came to close you up," replied Blackie, and went on towards the doorman.

"Just a moment, Norton," said Burley in amused surprise. "What was that you said?"

"I said I'd come to close you up, under contract to me."

"Oh, no, I haven't. You abrogated that contract. Gave her permission to leave." Despite his smile, Burley did not appear not quite so amused.

"Sure," retorted Blackie. "I gave her her voice and she said she'd stay with me. So the contract stands. See that man over there—the one with the big black mustache? That big, stupid man represents the law. And he's got a paper in his pocket that's

going to stop your prima donna right in the middle of her first act. Now isn't that just awful?"

"You wouldn't do that, Norton?" Burley spoke with hearty assurance to cover up his alarm. "I thoughtlessly started the man going. And I couldn't do a thing with him now. . . . Well, the music's starting. Guess I'll go and get my star." Blackie again made as though to enter the auditorium at once. Burley stalled for time.

"She doesn't go on until the second act."

"That's not very good showmanship. We'll wait, Babe. don't want to listen to those other mugs."

Burley smiled graciously at them. "Won't you smoke a cigar while you're waiting?" He fumbled in his pocket as Blackie, having expressed his thanks, took a fancy lighter.

"Just a moment, Norton. I'll get some."

He passed several persons who spoke to him without acknowledging their greetings, gave Signor Baldini, rubbing his hands in delight at the big opening, a grin. "Come in here!" and went into the office. He was at the telephone as the Italian entered. He waited for his number, and said to Baldini, beads of sweat on his forehead: "Norton's got a sheriff to stop Mary Blake."

"During the performance? But he can't do that!"

"Maybe he can. . . . Hello, Davis? This is Jack Burley. Hurry right over to the Tivoli opera house with a restraining order—to hold up a process."

"What? . . . Well, where is he? Get that deputy at once! Well, find him! I've got to have that restraining order!" He slammed up the receiver. "His deputy is away—fishing! You'd better get backstage at once. I'll see what I can do."

He hurried back into the lobby, bringing out from the pocket in which he had fumbled, two cigars. He offered them to Blackie and Babe. "Cameos," he said, with a grin. "Don't think you know that brand down at the Paradise."

"That's right. You needn't have bothered to call up Davis. I could have told you that deputy of his was off on a deep-sea fishing trip. He's crazy about fishing so I chartered him a boat."

Burley at once dropped his pose of unconcern and became the poised old man of business. "What about a deal, Norton? I'll give you \$15,000 or that contract."

"I'd like to oblige you, Burley, but you can see it's out of my hands. And this process server is just about the meanest man west of the Rocky mountains. . . . Well, Jim, what do you say?"

"The quicker I stop her, the quicker I get home," said the sheriff. Blackie tossed away Burley's cigar, saying to Babe: "See that we never order any of these for the Paradise," and walked into the orchestra, followed by Babe and the process server.

As the usher drew the curtain of the box in which he conducted them, the orchestra struck up the music of the Jewel Song. Blackie stood and looked down, smug and smiling, at Mary. She sat in the box, looking at him, and then began to sing. Blackie sat down, looking around at the stage, the big orchestra, the brilliant-looking audience, and was impressed. He rubbed his chin thoughtfully.

"Shall I go back now?" asked the process server.

"No. I'll tell you when," for Blackie did not say "when" for Mary seemed to be singing to him—her eyes kept staring to the box where he sat. And her voice was glorious. It did something to him—promised something further, and he kept waiting to hear a little more.

Babe leaned over and whispered: "Say, Blackie, that's kind of pretty."

"Yeah," said Blackie, shortly, non-committally.

The famous song ended brilliantly, and the audience applauded enthusiastically.

"Jennie is makin' a mistake. Lyin' to the children gets to be a habit, and after a while you start doin' it when you ain't talkin' to children."

BLOOD-HOUNDS ARE NOT VICIOUS DOGS

By L. VENN

Leon F. Whitney, well-known bloodhound trainer and breeder, says: "Probably no animals in the world are more misunderstood than bloodhounds. In the popular imagination, these vicious brutes that trail and attack their quarry. . . . They are the most gentle, harmless dogs known. They haven't the slightest ill will toward those they follow." The bloodhounds in "Uncle Tom's Cabin" have helped create the wrong picture of these animals.

The dogs of this story were really not bloodhounds at all, but "Cuban bloodhounds" which are a mixture of mastiff, Great Dane and bull. They are quite ferocious and very different from true bloodhounds.

UNCLE RAY'S CORNER

CROSSING THE ATLANTIC.

I—In the Age of Discovery. (Note: Today Uncle Ray begins a series which will tell the story of man's conquest of the Atlantic, from the sailing vessel to the airplane and dirigible. If saved from day to day, the stories will form an interesting chapter in your scrapbook.)

During, or about, the year 1000, Leif Ericson and a Norseman rowed and sailed a long, open boat from the coast of Norway westward. At last storms drove them to a strange shore, which they called Vineland, because grapevines were growing there.

Long ago people in Europe used to speak about the "edge of the world." Two sea captains did much to prove there was no such thing. First Magellan set out with a fleet of five vessels, and crossed the Atlantic by sailing southwest. It took a year to go from Spain to the southern end of South America, but Magellan was not trying to make a speed record—he made visits along the way. He did not finish his journey, he died in a battle on one of the Philippine islands, but men aboard one of the ships got clear "around the world" and back to Spain.

Francis Drake later circled the globe. His fleet, at the start, was made up of five vessels, but only one finished the journey. It was called the "Golden Hind."

In April, 1534, a Frenchman—Jacques Cartier—sailed from Western France across the Atlantic. The winds were good, and in only 35 days he reached the strait between Labrador and Newfoundland. This was the fastest Atlantic crossing on record during the Age of Discovery.

# Sterchi's Aids in Interior Home Decoration Problems

## EXPERT SERVICES HELP TO BUILDER

Advice of Skilled Staff Is  
Available to the Owner  
Without Any Obligation.

As one of many services rendered without cost to the builder, the interior decorating department of Sterchi Bros. Stores, Inc., at 116 Whitehall street, is assisting many Atlanta home owners this summer in planning original furnishing schemes. Members of Sterchi's decorating staff, among the foremost authorities in the south in this work, are available for consultation by builders or prospective builders, and will be glad to furnish drawings and cost estimates without obligation to the home builder.

Sterchi's decorating service is said to be complete, inasmuch as various departments of the store furnish every item necessary for beautifying the home. The latest styles in floor coverings and draperies are shown on the fourth floor of the huge Whitehall street building. Beautiful room settings are arranged on the fourth and fifth floors, giving examples of several types of furniture available for the modern home. And Sterchi's paint and wallpaper department takes care of all specifications where paint and paper are necessary.

Many home owners who do not feel it necessary to buy complete furnishings are finding the services of Sterchi's redecorating department invaluable. Skillful craftsmen, under the close supervision of long-experienced interior decorators, are constantly at work repolishing and bringing up to date furnishings which have lost their original beauty and usefulness. A telephone request will bring a representative of these departments to the home with repolishing samples, prepared to furnish estimates on the cost of any desired work.

The modern trend, a Sterchi executive points out, is definitely toward the use of Venetian blinds in home beautification. These beautiful creations are made to order by Sterchi's in all sizes and a variety of colors. Whether the home be completely new or only modernized, Sterchi's decorators will be glad to talk with anyone concerning their decorating problems. This service entails no obligation, it is stated.

## Floyd County Uses 'Caterpillar' Equipment For Maintenance of Modern Road System

This "Caterpillar" Auto Patrol is one unit of the complete "Caterpillar" equipment purchased by Floyd county to aid in the economic maintenance of its splendid road system. It was purchased from Yancey Bros., Inc., of Atlanta, dealers in road and farm machinery.

Several years ago, Floyd county purchased its first "Caterpillar" Auto Patrol for maintaining county highways. Goodloe Yancey, president of Yancey Bros., announces that they have recently bought three more "Caterpillar" Auto Patrols . . . and that in addition to these, Floyd county is also using "Caterpillar" Diesel tractors and "Caterpillar" graders. Floyd county has many miles of gravel and dirt roads . . . and they find they can maintain about 30 miles a day with each of these "Caterpillar" Auto Patrols.

J. D. Keever is superintendent of public works of Floyd county and is well supported by an able board of county commissioners composed of the following men: W. A. Knowles, chairman; Norman N. Burns, J. P. Morris, Seth Whitley, Frank West and T. S. Buchanan. Miss Emma Holder is clerk of the board of commissioners. Mr. Keever, in co-operation with his board of commissioners, has aided in bringing Floyd county to a splendid financial condition. They have in progress a very constructive program for county highways and bridges, and are replacing all old bridges with permanent type concrete and steel bridges.

Floyd is declared to be one of the most progressive counties of the state. It ranks high in agricultural prod-

ucts and has many splendid manufacturing plants, rayon mills, cotton mills, hosiery mills and stove manufacturing companies.

The county seat of Rome was built on the site of the ancient Indian town, Chiana, where Ferdinand DeSoto spent nearly a month visiting the young Indian chief of the tribe in 1540. This young chief, John Ross, of the Cherokee nation, had a home at Rome as well as Rossville. It stood on DeSoto road between the present locations of West Rome bridge and the home of Colonel Alfred Shorter, founder of Shorter College.

There are many historical points of interest in the beautiful city of Rome. On historic Third avenue, stands the girlhood home of the first Mrs. Woodrow Wilson. (Ellen Lou Axson). In Myrtle Hill cemetery her body rests on the Axson lot.

On Broad street in the business section, stands the beautiful monument erected in 1910 to the memory of the Women of the Confederacy. This is the first monument ever erected in their honor.

On a main street is a monument presented to the city of Rome by the Italian government. The figure is a copy of the legendary Romulus and Remus and the Wolf, depicting the founders of Rome, Italy.

On October 17, 1793, a bloody battle between the forces of General John Sevier and the Cherokee Indians was fought near Rome. This battle, known as the Battle of the Clouds, was the last battle of the Cherokee War.

The monument to Dr. Robert Battey stands on the city auditorium lot, honoring the memory of one of the outstanding citizens of Rome, and one of the outstanding physicians of America. Erected by the Floyd county Medical Society and the Seventh District Medical Society, it was unveiled May 5, 1921.

One of the most interesting landmarks in Floyd county is the old Mitchell mansion, located on a large corner lot at the intersection of North Fifth avenue and West Eleventh.

## DEBT RETIREMENT SHOWS RECOVERY

Investors' Syndicate and  
Jefferson Mortgage Of-  
ficials Confer Here.

Rapidity of recovery and confidence in its continuance throughout the United States is emphasized by the way people are paying their debts and assuming long-term obligations, according to Walter H. Rolapp, vice president of Investors' Syndicate of Minneapolis, who is in Atlanta today for the purpose of a conference with D. W. Watson, vice president of Jefferson Mortgage Company.

"Settlement in many business, commercial and manufacturing activities and in most regions throughout the country," Mr. Rolapp declared, "is shown by the accelerating rate at which debts are being retired and the slackened demand for immediate necessary short-term loans."

Confidence in the continuance of rapid recovery in this country, Mr. Rolapp explained, "is demonstrated by the assumption of long-term obligations, such as accumulation of retirement funds and home mortgages. When people are fearful they do not plan far ahead. They refuse to assume long-term contracts, for setting aside money reserves or home purchases. Likewise they are inclined to hold on to cash and, therefore, put off debt payments."

Investors' Syndicate is expressing its own confidence in the rapid return of prosperity to this country, in fact, it is hurrying that return by investing \$24,000,000 in mortgages, before the close of this year, in the 30 states in which we are financing home construction.

"We note these national trends, debt payments and long-term contract assumptions," continued Mr. Rolapp, "in our own daily business transactions in the 38 states in which we operate and in the numerous business with which we come in contact daily because the contracts we issue and the bonds and mortgages we buy with the proceeds of such contracts represent relatively long-term obligations."

"Our example, observed, is a gain of 38.74 per cent in its mortgage collections during the first quarter of this year over the like period of 1935. Loans to contract holders and surrenders of certificates were off 3.44 per cent in the first three months of 1936 compared with the corresponding period of a year ago. Recoveries have resulted in debt payments and diminished borrowings for im-

## See Business Gains

WALTER H. ROLAPP.

mediate needs. Contracts and certificate buyers are not likely to surrender such purchases before maturity unless compelled to do so by economic pressure. "Indications of the way Americans are planning their economic future, contract collections have increased 30.83 per cent, and new business sold increased 6 per cent during the first quarter of this year as compared with the same three months of last year. These trends are continuing. Such achievements are results of the rapid recovery in our business life. The assumption of long-term contracts, certificates or home mortgages, the former recorded in new business books, is positive proof that Americans look to their national future with confidence."

"These upward tendencies please us because they are not developments of the last few months. They started several years ago. Their speed has increased steadily since 1933. And such trends are not confined to a few companies or some isolated regions."

"We know a housing shortage exists in many cities today. As the national income increases, this housing shortage rapidly will become acute. Therefore, some of the individual accumulations of money, which sharply in last several years, will find their way into home construction or in the purchase of homes before building costs further advance."

"The investing public already has registered its opinion on the building outlook by bidding up the shares of building material and manufacturing companies to nearly double their values of January 1, 1935. Such enhanced values in building stocks forecast that much residential construction will be needed over the next few years if normal housing requirements are to be met."

Consistently maintaining its record of providing first rank fire insurance protection at a lower net cost than any other fire insurance company writing business in Georgia, the Southern Mutual Fire Insurance Co., at its annual meeting last week, again declared its usual annual dividend of 50 per cent to policyholders.

"In the year 1935," says Julien Erwin, of the firm of Smith & Erwin, Atlanta agents, "the Southern Mutual pursues its undeviating course of careful selection of fire insurance risks, and the policies distinctly so for the protection of policyholders, and strict economy of operation. These principles, adopted when the company was organized in 1847 and adhered to for 89 years, have placed this company in the forefront of fire insurance companies and kept it there."

The Southern Mutual's 88th annual statement, just published, shows safe income producing assets of more than one and three-quarters million dollars, of which one and one-half million dollars is clear surplus reserve for the protection of policyholders.

There is no assessment feature to Southern Mutual fire insurance policies, and the policies distinctly so. And, says Mr. Erwin, there is no basis for the somewhat prevalent belief that the company will insure only one house in each block. The company has no such rule.

Smith & Erwin, the Southern Mutual agents for Atlanta and vicinity, maintain offices at 449 Hurt building,
